Porterville, CA 93257

to

Accrediting Commission for Community and Junior Colleges

December 15, 2024

Certification

To: Accrediting Commission for Community and Junior Colleges

From: Primavera Monarrez, Interim President
Porterville College
100 E. College Ave.
Porterville, CA 93257

This Institutional Self-Evaluation Report is submitted to the ACCJC for the purpose of assisting in the determination of the Institution's accreditation status.

I certify there was effective participation by the campus community. I believe the Self-Evaluation Report reflects the nature and substance of this Institution, as well as its best efforts to align with ACCJC standards and policies.

Signatures:

Steven Bloomberg, Ph.D. / Ed.D.
Chancellor, Kern Community College District

Primavera Monarrez
Interim President, Porterville College

John Corkins
President, Kern Community College District Board of Trustees

Thad Russell, Ed.D.
Accreditation Liaison Officer

Rebecca Baird, Ph.D.
President, Academic Senate

Shauna Williams
President, Chapter 46, CSEA

Selena Monzon
President, Associated Student Government

Forward to the Institutional Self-Evaluation Report

The self-evaluation process provided the time and space for the College to reflect upon opportunities to improve as well as applaud the momentous strides being made to advance student success at Porterville College.

Upon introspection, the College recognizes the need to align better the various high-level planning processes, such as strategic planning, educational master planning, and facilities planning, so as to provide clarity, consistency, and stability. With a more cohesive strategy for these processes, the College could enact them more efficiently and with less redundancy. For instance, the College's practice program review is comprehensive and well-established, and yet the self-evaluation process exposes an opportunity to better incorporate time-to-completion rates and address the need for more strategic scheduling across all academic programs, both deficiencies that are not evident within the scope of evaluating an individual program. With student success central to its mission, the College recognizes the need to improve enrollment management practices to better ensure students can maximize opportunities to complete coursework in a timely manner within their chosen modality.

The self-reflection process has also highlighted the collegewide efforts to advance student success. For example, Guided Pathways has optimized the student journey from onboarding to completion with a clear map, efficient use of units, and tailored support. The past several years have seen the College refocus efforts on expanding career education programs and better aligning academic offerings to local workforce needs. Streamlined processes, dedicated faculty and staff, and programs to address basic needs have increased student engagement on campus.

Within the past year, the College has been in transition with executive leadership changes. The Vice President of Finance and Administrative Services position became vacant in late spring 2024. Currently, California community colleges are struggling to recruit for and fill that position. At the end of May 2024, there was a leadership change with the standing president of the College, and Kern Community College District brought in an interim president. Recruitment for the permanent president will begin in the spring of 2025. Though these changes could have been disruptive, processes and procedures remained fully functional. The College has responded in ways that are consistent with its mission and goals to provide quality, student-centered education regardless of personnel movement. Strategic priorities, including academic excellence, student support, and community engagement, continue to drive decision-making and operational activities. Throughout the leadership changes, enrollment remains strong, employees are dedicated, and students continue to be successful. The persistence in excellence is a testament to the strength of Porterville College's processes, procedures, employee preparedness, and focus on institutional mission and values.

The self-evaluation process provided the time and space for the college to reflect upon opportunities to improve enrollment management including more strategic scheduling across all academic programs

The college's Program Review process is comprehensive, consistent, and effective and yet the self evaluation process exposes an opportunity to better incorporate time-to-completion rates in the data consistently evaluated.... [I know there's a lot of reused words - help?]

the college and the district recognize the need to better align the various high-level planning processes, such as strategic planning and educational master planning, so as to provide consistency and stability

opportunity to improve enrollment management practices/processes to better ensure students can maximize opportunities to complete coursework on time/ within time - and within their chosen modality???

The past several years has seen the college refocus efforts on expanding career education programs and better aligning academic offerings to local workforce needs.

Streamlined processes and faculty dedicated to student success have ???? Student engagement, mental health services, and student support have expanded by increasing support services, the college becoming a Caring Campus, increasing basic needs, and student life. The College continues to embed Guided Pathways with the implementation of Program Mapper, the Guided Pathways Academy for faculty, Pathway Teams, the development and launch of Welcome Day for first time incoming students, and Guided Pathways Pillar 4 Ensure Learning Plan. T
ie back to student success

Within the past year the College has been in transition with executive leadership changes. The Vice President of Finance and Administrative Services position became vacant during late spring 2024. Currently, across California community colleges are struggling in recruiting and filling the Vice President of Finance and Administrative Services positions. At the end of May there was a leadership change with the standing President of the College. The Kern Community College District decided to bring in an Interim President while the recruitment for the permanent president will begin spring 2025. Processes and procedures remained fully functional. Through it all, the College has responded in ways that are consistent with its mission and goals to provide quality education and support student success. Strategic priorities, including academic excellence, student support, and community engagement, continue to drive decision making and operational activities. Throughout the leadership changes enrollment remains strong, students continue to be successful, employees are engaged, and the college is excelling in its mission. All

of which are a testament to the strength of the college's processes, procedures, employee preparedness, and focus on institutional mission and values.

DRAFT

A. Introduction: Institutional Context

Porterville College was established in 1927 as a part of the Porterville Union High School and College District. All of the classes were taught in high school classrooms until 1944 when a building was constructed on the high school campus specifically for the junior college. The College moved to its current location in 1955. The College ended its relationship with the high school district in 1967 and joined the Kern Community College District (KCCD) that same year.

The KCCD covers an area of approximately 24,800 square miles in parts of Kern, Tulare, Inyo, Mono, and San Bernardino Counties. Geographically the largest community college district in the United States, the KCCD services a population base of about a million and an estimated enrollment of 42,000 students. In addition to campuses in Bakersfield and Ridgecrest, the KCCD includes off-campus educational centers in Delano, Lake Isabella, Edwards Air Force Base, Bishop, and Mammoth.

Porterville College covers approximately 85 acres and provides educational opportunities to people from a geographic area covering 2,800 square miles in southeastern Tulare County. Porterville College serves the community of Porterville, with a population of approximately 60,000, and a larger service area population of more than 120,000. The College enrolls approximately 4,500 individual full- and part-time students each year.

The College offers non-credit and credit educational programs that include transfer, career and technical education, and basic skills. At Porterville College, there are several unique career and technical education programs that include the Police Reserve Officer Academy, Firefighter Academy, Psychiatric Technician Program, and Registered Nursing Program. The RN program was originally offered in collaboration with Bakersfield College and was approved by the Board of Registered Nursing in May 2010 to be offered separately at Porterville College. There are eight academic divisions plus one division in student services at the College:

- Career Education
- Fine and Applied Arts
- Health Careers
- Kinesiology
- Language Arts
- Mathematics
- Natural Sciences
- Social Sciences, and
- Student Services.

These divisions offer a broad range of majors and transfer opportunities, certificates, and remedial courses and programs. Currently, the College offers sixteen local associate degree majors and sixteen certificate of achievement programs. The College also offers nineteen associate degrees for transfer (twelve associate in arts for transfer, seven associate in science for transfer) which guarantees a student junior status with a California State University (CSU) campus upon completion. The College continues to position itself to meet the growing and changing needs of the community.

Student success is central to the mission of the College, and numerous support services are offered in the spirit of student-centered learning. Included in these services are academic advising and counseling, the library, financial aid, the Learning Resource Center, the Transfer Center, Disability Resource Center (DRC), Extended Opportunity Programs and Services (EOPS), Cooperative Agencies Resources for Education (CARE), food services, bookstore, student activities and clubs, intercollegiate athletics, tutoring, assessment, admissions and records, orientation, and the Veterans Resource Center.

The Porterville College Foundation serves as the non-profit arm of Porterville College as an auxiliary 501(c)3 organization. The Foundation supports the College in developing activities, programs, and facilities in the best interest of students. Over the last thirty years, the Foundation's net asset allocation has grown and changed considerably. In 1991, the net assets were approximately \$350,000, with more than 80 percent dedicated to scholarships. Today, the Foundation estimates its net assets to be approximately \$16.4 million.

The Foundation actively pursues philanthropic opportunities to develop and support the College. For over 30 years, the Foundation has held a weekly swap meet that supports programs and facilities and student work-study opportunities, while also fully funding the PC First scholarship program—which funds \$50,000 in annual scholarships for local high school seniors attending Porterville College immediately following high school graduation. In addition, the Foundation offers a robust endowed scholarship program that funds in perpetuity scholarships for Porterville College students for years to come. Over the last ten years, the Foundation has awarded over \$2 million dollars in scholarships with approximately \$168,050 awarded at the Scholarship & Award Ceremony in April 2024.

The College is very proud of its reputation of being both academically focused and student-centered. As indicated in the Mission Statement, while the College promotes a student-centered learning environment, the College also commits to fostering “intellectual curiosity, personal growth, and lifelong learning, while preparing students for career and academic success.”

Mission Statement

With students as our focus, Porterville College provides our diverse local communities quality education that promotes intellectual curiosity, personal growth, and lifelong learning, while preparing students for career and academic success.

In support of our values and philosophy, Porterville College will:

- Provide quality academic programs to all students.
- Provide comprehensive support services to help students achieve their personal, career and academic potential.
- Prepare students for transfer and success at four-year institutions.
- Provide courses and training to prepare students for employment or to enhance skills within their current careers.
- Provide comprehensive support systems tailored to each student's skill level.

- Recognize student achievement through awarding degrees, certificates, grants, and scholarships.

Values

Porterville College's core values define the character of the institution and are active ingredients in all that the College does. Through our commitment to these values, the College can better serve and be more responsive to its students, staff, and community:

Participation - fostering and encouraging the involvement of staff and students in campus activities and the various aspects of the College decision-making process.

Integrity - holding one another accountable and remaining transparent by adhering to the highest academic and professional standards.

Respect - treating each other with respect, trust, and dignity.

Adaptability - nurturing and supporting exploration of innovative ideas, programs, and services to enhance our service to the community.

Teamwork - working together to encourage input and dialogue in a collegial and cooperative manner.

Equity - Supporting students in achieving their full educational potential regardless of race, ethnicity, age, gender, gender identity, sexual orientation, immigration status, religion, ability, culture, and learning modality.

Success – Striving to continually support students in achieving their academic, career, and personal goals.

Philosophy

In support of our mission and values, Porterville College will base its decisions and actions upon the following beliefs:

- All students at Porterville College will be treated with respect and dignity regardless of who they are or the goals they have established for themselves.
- Porterville College will provide the best possible service to its students in order for them to meet their individual academic or vocational goals.
- Porterville College will encourage innovation, creativity, and new ideas and will support professional development opportunities.
- As an integral part of the community, Porterville College will develop and enhance partnerships with schools, colleges, universities, businesses, and community-based organizations to respond to the educational, workforce, and economic development needs of the region.
- As an integral part of the Kern Community College District, Porterville College will participate in and be actively involved with all districtwide committees and governance structures.

B. Institutional Self-Evaluation of Alignment with Accreditation Standards

Standard 1: Institutional Mission and Effectiveness

1.1

The institution has established a clearly defined mission that appropriately reflects its character, values, structure, and unique student demographics. The institution’s mission articulates its commitment to assuring equitable educational opportunities and outcomes for all students.

The Porterville College Mission reads as follows:

Mission and Values

Our Mission

With students as our focus, Porterville College provides our diverse local communities with quality education that promotes intellectual curiosity, personal growth, and lifelong learning, while preparing students for career and academic success.

In support of our values and philosophy, Porterville College will:

- Provide quality academic programs to all students.
- Provide comprehensive support services to help students achieve their personal, career, and academic potential.
- Prepare students for transfer and success at four-year institutions.
- Provide courses and training to prepare students for employment or to enhance skills within their current careers.
- Provide comprehensive support systems tailored to each student’s skill level.
- Recognize student achievement through awarding degrees, certificates, grants, and scholarships.

Our Values

Porterville College’s core values define the character of the institution and are active ingredients in all that the College does. Through our commitment to these values, the College can better serve and be more responsive to its students, staff, and community:

- *Participation*—fostering and encouraging the involvement of staff and students in campus activities and the various aspects of the College decision-making process.
- *Integrity*—holding one another accountable and remaining transparent by adhering to the highest academic and professional standards.
- *Respect*—treating each other with respect, trust, and dignity.
- *Adaptability*—nurturing and supporting exploration of innovative ideas, programs, and services to enhance our service to the community.
- *Teamwork*—working together to encourage input and dialogue in a collegial and cooperative manner.
- *Equity*—Supporting students in achieving their full educational potential regardless of race, ethnicity, age, gender, gender identity, sexual orientation, immigration status, religion, ability, culture, and learning modality.
- *Success*—Striving to continually support students in achieving their academic, career, and personal goals.

Our Philosophy

In support of our mission and values, Porterville College will base its decisions and actions upon the following beliefs:

- All students at Porterville College will be treated with respect and dignity regardless of who they are or the goals they have established for themselves.
- Porterville College will provide the best possible service to its students in order for them to meet their individual academic or vocational goals.
- Porterville College will encourage innovation, creativity, and new ideas and will support professional development opportunities.
- As an integral part of the community, Porterville College will develop and enhance partnerships with schools, colleges, universities, businesses, and community-based organizations to respond to the educational, workforce, and economic development needs of the region.
- As an integral part of the Kern Community College District, Porterville College will participate in and be actively involved with all districtwide committees and governance structures.

The mission is reviewed often by the College Council, the broad, participatory governance planning body for the College. In some cases, reviews result in no changes; other times, small or large edits are made. The issue of equity was added several years ago and has been an increasing focus of the College.

In 2021, the College Council appointed a task force to review the mission thoroughly and suggest revisions. That group brought forward several changes, including updating the previous section with a more current view of how we handle remediation, revising the Values to call out the issue of equity more explicitly and clearly in a way that was inclusive of all students, and several other minor edits. We found that the Values section could be reorganized to spell the College mascot, PIRATES, with the first letter of each value.

These changes were discussed at the College Council and approved on December 6, 2021 ([College Council Minutes \(December 6, 2021\)](#)). The new Mission Statement then went to the Kern Community College District Board of Trustees, where it was approved on February 22, 2022 ([KCCD Board of Trustees Minutes \(February 22, 2022\)](#)).

The Institution's mission appropriately reflects the community and students it serves. The Mission Statement refers to our "local diverse communities." Porterville College serves primarily the southeastern portion of Tulare County, the city of Porterville, and several smaller communities. Nearly two-thirds of the College's students come from a single zip code, 93257, in the Porterville area. The College does have an online presence, which historically had been small, but has recently expanded after the onset of the COVID-19 pandemic in the spring of 2020. Now, about half of the course offerings are online ([Porterville College Fast Facts](#)).

The Institution's mission appropriately reflects the nature and structure of the Institution by referencing its inclusion in the Kern Community College District, a designation of public, predominantly two-year colleges, in California.

The Institution's commitment to equitable educational outcomes is informed by an understanding of the characteristics and needs of its students. The last bullet point of the Mission Statement mentions that the College awards “degrees, certificates, grants, and scholarships.” The degrees currently offered include Associate of Arts (AA), Associate of Science (AS), Associate of Arts for Transfer (AA-T), and Associate of Science for Transfer (AS-T). The College is currently considering adding bachelor’s degrees as an option. The College also offers both certificates of achievement and short-term job skills certificates. In recent years, non-credit English as a Second Language (ESL) certificates of competency have been added, and some other non-credit certificates are under consideration ([Degrees and Certificates Web Page](#), [2024-2025 Catalog](#)).

Other bullet points detail the remainder of the mission and values. As reflected in the College’s Mission Statement for many years, Porterville College remains dedicated to keeping “students as our focus.” The College has continued to update and refine the Mission Statement, which now clearly outlines the degrees and certificates offered but also emphasizes the College’s dedication to preparing students for transfer, helping them embrace all of the skills necessary for success, and enhancing their aptitude for seeking opportunity and finding positions as productive members of the workforce. To maximize student success, the College provides academic and student support programs, has clarified its goals, has emphasized its commitment to student equity, and has made significant progress in cultivating community partnerships.

The Institution's mission demonstrates alignment with ACCJC's Policy on Social Justice through its repeated emphasis on student equity, educational opportunity, success, and the individual needs of each student.

1.2

The institution establishes meaningful and ambitious goals for institutional improvement, innovation, and equitable student outcomes.

The Institution establishes its goals in a process appropriate for its character and context. Porterville College has in place the structure for a robust planning process that includes meaningful and ambitious goals largely focused on improving student success and narrowing equity gaps. There are two challenges in recent years to that process. One is that the College has recently experienced a higher level of leadership turnover. However, the most impactful challenge has been the COVID-19 pandemic, which has impacted everything from enrollment to day-to-day work. While the pandemic has receded, during the time when it was most serious, the daily work of College staff was often dedicated to dealing with its impact and effect on students. This focus on the pressing emergency was necessary, but it meant that several of the plans got behind schedule. Part of the purpose of recently updating the Integrated Planning document ([Program Review Forms Instructional](#)) was to get these plans back on track and re-dedicate the College to a regular cycle of planning and goal setting.

Program review is the grassroots basis of the College’s planning process. In each program review, area programs are expected to report on goals from their previous program review and to establish new goals. Each of these new goals must be linked to one or more of the bullet points at the top of the Mission Statement and to each of the four pillars of the Guided Pathways framework. Each program lists a person responsible for the goal, a timeline for completion, and resources needed ([Program Review Forms Instructional](#), [Program Review Forms, Non-Instructional](#)).

Outcomes are measured through processes established by the Outcomes Committee, which has created an Outcomes Handbook ([Porterville College Outcomes Handbook](#)) to document that process. The program's processes for assessing Student Learning Outcomes (SLOs), Program Learning Outcomes (PLOs), and/or Service Area Outcomes (SAOs) are also documented in the program review, as well as how the results of those assessment cycles are used to inform decisions about the program. Each program review describes how assessments occurred, lessons learned, and steps for future improvement.

The Program Review Handbook ([Program Review Handbook](#)) describes the program review process in great detail, including the documentation of outcomes assessment, goal setting, data on student success and equity, and how to avoid common pitfalls and mistakes when completing a program review. Each program review is discussed in the Strategic Planning Committee and assessed according to a rubric ([Program Review Assessment Rubric](#)). All the documents needed for program review and the most recent program review for each area are on the College's program review web page ([Program Review Web Page](#)).

The Institution has clearly defined institutional goals that align with its mission, are appropriately forward-looking, and include consideration of equitable student outcomes. Overreaching and guiding goals are established in the College's Strategic Plan ([Porterville College Strategic Plan](#)). This document includes a set of four goals, the first two of which are focused on improving student success and closing equity gaps. To improve student success, the College has established objectives throughout the student journey, from onboarding to engagement, the completion of momentum points, and finally, the completion of a degree, certificate, transfer, and post-college employment outcomes. For equity, the Strategic Planning Committee reviewed data broken out by various student characteristics but largely focused on reducing gaps in gender, ethnicity, first-generation status, and disability.

Several other College plans include goals, the most recent example being the Educational Master Plan ([Educational Master Plan](#)). Developed in 2023 with the Collaborative Brain Trust as a consultant, this plan included the input of various college and community constituency groups and established a foundation for the next five years of the College's work. The Board of Trustees approved it on September 14, 2023 ([Board of Trustees Minutes \(September 14, 2023\)](#)) and will serve as the foundation of the upcoming Facilities Master Plan.

The entire planning process is described in detail in a document called Integrated Planning, Assessment, and Action (IPAA) ([Integrated Planning, Assessment, and Action](#)). This document covers the College decision-making process and includes a description of and timelines for each of the College plans, including the Strategic Plan ([Porterville College Strategic Plan](#)), Educational Master Plan ([Educational Master Plan](#)), Facilities Master Plan ([Facilities Master Plan](#)), Enrollment Management Plan ([Enrollment Management Plan](#)), Distance Education Plan ([Distance Education Plan](#)), and Guided Pathways Work Plan. That document was updated in the 2022-23 academic year, and the new version was approved by the College Council on October 2, 2023 ([College Council Minutes \(October 2, 2023\)](#)).

The Institution's goals align with key initiatives within its scope of responsibility. The College and District include a comprehensive array of planning processes and documents informed by the Educational Master Plan and Strategic Plan. All initiatives and grants must demonstrate

alignment with these previously identified overarching goals to be considered for inclusion or application ([Elements of Decision-Making 2016](#), [Elements of Decision-Making 2023](#)).

1.3

The institution holds itself accountable for achieving its mission and goals and regularly reviews relevant, meaningfully disaggregated data to evaluate its progress and inform plans for continued improvement and innovation.

The Institution has established and published standards for student achievement (i.e., institution-set standards) in accordance with Commission policy as documented in the ACCJC Annual Reports ([ACCJC 2023 Annual Report](#)). Goals are typically mathematically derived based on past performance, established by the Strategic Planning Committee, and approved by the College Council and the Accreditation Committee. They are then disseminated to the remainder of the College through College Council committees and the website.

The KCCD Strategic Plan includes “Strategic Direction #1: Maximize Student Success, Ensure Student Access, and Reduce Equity Gaps.” The direction is followed by specific targets for student achievement ([KCCD Strategic Directions Addendum](#)).

The Institution regularly reviews and discusses qualitative and quantitative data to evaluate its progress toward achieving the mission, enhancing understanding of students’ experience, informing short and long-term planning, and implementing improvements as needed. Porterville College and Kern Community College District have a robust data capacity with dashboards that often exceed those available through the state Chancellor’s Office in that the data are more recent, more inclusive, more complete, and disaggregate on a wider variety of student attributes. These data are used in program review, strategic planning, the College’s Guided Pathways work, and several other areas on a regular basis. The College has been recognized by Achieving the Dream and several other organizations for its work in this area, particularly in improving student outcomes and success rates of Hispanic students.

An annual report from each college goes to the Board of Trustees called Targets and Tactics, which is an analysis of data used to inform the next steps forward ([PC Targets and Tactics](#)).

The Institution regularly reviews meaningfully disaggregated data, identifies equity gaps, and engages in planning and improvement to close these gaps. Program review is a starting point for these discussions but is by no means the only place the College evaluates disaggregated data. In the College’s program review data ([KCCD Program Review Data page](#)), instructional programs are encouraged to assess the impact of their work on various student populations and can disaggregate their data on a variety of student characteristics. For example, course completion and success data are broken out by more than twenty student attributes, including ethnicity, gender, first-generation status, participation in the disability center, and several other campus programs ([Course Completion and Success Data Attribute Filters](#)). Each program focuses on a student attribute that is significant for that area and/or where there are important equity gaps.

The College’s Strategic Plan ([Porterville College Strategic Plan](#)) also includes data disaggregated by multiple student attributes. Some of these come from program review data, but many come from our First-Time Student Cohort Dashboard ([KCCD First-Time Student Cohort Dashboard \(2022 Cohort Profile Summary\)](#)), a process that began with the College’s participation in the

Achieving the Dream network of colleges. As part of this national initiative, Porterville College was named a Leader College in 2016, then a Leader College of Distinction ([Porterville College Achieving the Dream Leader College of Distinction Announcement](#)) in 2021, an honor that was achieved from the College's efforts to increase student success and reduce equity gaps on some of those same achievements ([Award or Transfer within Three Years](#)).

Also, as part of the Achieving the Dream process, the College established a Data Team, a group that initially reviewed College data from a wide variety of sources, focusing on improving student success and reducing equity gaps. In 2022, the Data Team was reorganized to be part of the Guided Pathways initiative. The group reports to the larger Guided Pathways Committee and supports the work of each of the Guided Pathways teams ([Guided Pathways Committee Minutes](#)). Various other committees and campus initiatives use disaggregated data as well.

The KCCCD Strategic Plan ([KCCCD Strategic Plan](#)) includes “Strategic Direction #1: Maximize Student Success, Ensure Student Access, and Reduce Equity Gaps.” Specific targets for student achievement are also set in this plan.

An annual report from each college goes to the Board of Trustees called Targets and Tactics ([PC Targets and Tactics](#)), which is a high-level analysis of enrollment and apportionment data and is used to inform College operations that reflect short-term adjustments to constant political and economic fluctuations.

1.4

The institution's mission directs resource allocation, innovation, and continuous quality improvement through ongoing systematic planning and evaluation of programs and services.

Institutional systems for comprehensive planning are designed to support the accomplishment of the mission and lead to institutional innovation and improvement. Porterville College has a framework for a strong planning process that focuses resources on furthering the College's mission of student success and equity. As noted above in Standard I.2, leadership turnover and the COVID-19 pandemic effects have led some plan updates to be delayed, a situation the College is correcting. The Integrated Planning, Assessment, and Action document ([Integrated Planning, Assessment, and Action](#)) establishes a timeline for each plan to be updated and a cycle for the future.

Every two years, the KCCCD office departments provide an administrative unit review that serves as a planning document to support the mission and to accomplish institutional innovation and improvement ([AUR Business Services](#), [AUR Construction and Facilities Planning](#), [AUR Educational Services](#), [AUR Workforce and Economic Development](#), [AUR Human Resources](#), [AUR Information Technology](#), [AUR Institutional Research and Reporting](#)).

Institutional systems for planning are integrated such that information from program planning informs processes for resource allocation, decision-making, and short- and long-term operational planning. Program review is the grassroots basis for the College's resource allocation process. In the program review forms ([Program Review Form Instructional](#), [Program Review Form Non-Instructional](#)), each area evaluates its outcomes, progress on its previous goals, current strengths, and areas for improvement, and then sets new goals and makes resource

requests aligned with the program's needs and those goals. This form includes staffing requests, budget requests, and a resource allocation process focused on four specific areas: technology, facilities, safety/security, and professional development. Guidance on completing these forms is provided in the Program Review Handbook ([Program Review Handbook](#)), and program compliance with this process is evaluated by the Strategic Planning Committee using an evaluation rubric ([Program Review Assessment Rubric](#)).

After a detailed review meeting in the Strategic Planning Committee in which requests for changes are often made, program reviews are then approved by the College Council ([College Council Minutes \(November 21, 2022\)](#)) before being routed to various college committees ([Program Review Approval Process Chart](#)), including the Budget Committee. That committee evaluates all budget and most resource allocation requests and implements a college budget that addresses those requests, with a focus on adhering to the College mission, as outlined in the program review process. In addition to the program review links to the College mission and Guided Pathways pillars, the annual budget request process asks each program to link their requests to the statewide Vision for Success and the College Strategic Plan ([Annual Program Review Update & Budget Worksheet Instructions](#)). The Budget Committee discusses the various program reviews and budget requests and uses them to create an annual College budget ([Budget Committee Minutes \(April 14, 2023\)](#)).

Every two years, the KCCD office departments provide an administrative unit review that serves as a planning document to support the mission and to accomplish institutional innovation and improvement ([AUR Business Services](#), [AUR Construction and Facilities Planning](#), [AUR Educational Services](#), [AUR Workforce and Economic Development](#), [AUR Human Resources](#), [AUR Information Technology](#), [AUR Institutional Research and Reporting](#)).

Institutional systems for planning are designed to occur on a regular basis, include appropriate participation from institutional constituencies, and are informed by relevant data and information. The Educational Master Plan and Facilities Master Plan processes are regularly scheduled and include participation from all College and District constituent groups as well as the community and strategic local partners. The rest of the College planning process, also described above in Standard 1.2, focuses resources on advancing the College mission. At nearly every step, the Strategic Planning Committee and the various College Council subcommittees inform the College Council as part of participatory governance. The use of internal and external data is integral and pervasive. The Enrollment Management Plan, currently under development, will focus on ensuring that students have access to the classes they need, in the format(s) in which they need them, and at the time(s) when they need them ([Enrollment Management Committee Agenda \(April 24, 2023\)](#)). This is part of the Guided Pathways framework, promoting student success and equity throughout the student journey ([Educational Master Plan](#), [Facilities Master Plan](#)).

The recently adopted Educational Master Plan ([Educational Master Plan](#)) will provide the framework for much of the College's planning and resource allocation efforts soon. It also strongly influenced the Facilities Master Plan ([Facilities Master Plan](#)), approved by the College Council on May 6, 2024 ([College Council Meeting Minutes Draft \(May 6, 2024\)](#)), which relays the plan for new and updated facilities for the future educational needs of Porterville College students.

As an example, the Grant Oversight Committee has been reconstituted as a subcommittee of the Budget Committee to guide efforts to seek out grants for the College to support its mission and further student success ([Budget Committee Meeting Minutes \(May 5, 2023\)](#)). The new committee is now a subcommittee of the Budget Committee, which is itself a subcommittee of the College Council.

The administrative unit reviews are done every two years and reviewed by the Chancellor's Cabinet and District Consultation Council ([District Consultation Council Presentation on AUR Timeline](#)).

1.5

The institution regularly communicates progress toward achieving its mission and goals with internal and external stakeholders in order to promote understanding of institutional strengths, priorities, and areas for continued improvement.

The Institution regularly communicates the results of its progress assessments with internal and external stakeholders, as appropriate to its character and context. Communication proceeds at Porterville College through its participatory governance process, which is described in the College's Participatory Governance Statement ([Participatory Governance at Porterville College](#)). This document outlines the communication and decision-making process of the College, including how committees are structured. The College Council is the broad participatory governance body of the College, with representation from all constituency groups. It makes recommendations to the College president regarding decisions and policies. Subcommittees of the College Council include Enrollment Management, Budget, Guided Pathways, Strategic Planning, and the Social Justice Action Committee, among others. Each of these focuses on a particular area of specialty, with important decisions and policies brought to the College Council for recommendations before going to the president ([PC Decision Flowchart 2023](#)).

The College has a robust planning process and works to engage both internal and external stakeholders with ongoing communication. A group recently noticed that the Participatory Governance Statement ([Planning Documents Web Page](#)) referenced above was last updated in 2018. In 2022, the College Council appointed a task force to begin an update of the document. That process is ongoing. The task force is reviewing the statement of one of the sister colleges and working to better define terms and committee types in the statement.

KCCD goals are guided by the Chancellor and Board and are shared and updated regularly ([District Consultation Council Agenda \(April 26, 2022\)](#), [District Consultation Council Minutes \(March 26, 2019\)](#), [District Strategic Plan](#)).

Institutional evaluation reports and program reviews can be accessed by constituencies. Planning is broadly communicated within the College and made available to the public as well. The program review web page ([Program Review Web Page](#)) includes all the things necessary for programs to complete their reviews, including the form templates, the program review handbook, the program review schedule (on a three-year cycle), and the rubric the Strategic Planning Committee uses to evaluate the documents. Additionally, the page includes the most recent program review for each area, so that the college community, and the broader public, can see progress on goals, resource requests, and all other aspects of a program review in which they might have interest. KCCD District Office program reviews are done every two years and are

shared at both the Chancellor's Cabinet and Districtwide Consultation Council ([District Administrative Unit Reviews](#)).

Similarly, the Institutional Research Office maintains a planning documents web page ([Planning Documents Web Page](#)). Here, members of the college community and the general public can find each of the College's planning documents, from links to accreditation to the strategic and educational master plans, etc.

KCCD District Office program reviews are done every two years and are shared at both the Chancellor's Cabinet and Districtwide Consultation Council ([District Administrative Unit Reviews](#)).

Data and evidence related to institutional strengths and areas for development are used to inform and document discussions of institutional priorities. The extensive data resources made available at KCCD through dashboards, program reviews, and external environmental scans provide valuable data for all aspects of the planning and evaluation processes. The College recently updated its Educational Master Plan ([Educational Master Plan](#)), working with the Collaborative Brain Trust (CBT) as a consultant. As part of that process, CBT conducted "listening sessions" ([College Council Meeting Minutes \(March 20, 2023\)](#)) with both internal and external stakeholders of the College, gathering input on needs, hopes for goals to be included, and how resources should be devoted in the next few years.

Each of the Career Education (CE) programs has an advisory committee ([Career Education Advisory Committee Page](#)) comprised of College faculty and staff and community members with experience in the field. Industry experts advise faculty on matters of curriculum and related issues. These committees help the College improve the programs and foster a connection between the College and the communities and industries it serves.

KCCD goals are guided by the Chancellor and Board and are shared and updated regularly through forums, email updates, and newsletters ([District Consultation Council Agenda \(April 26, 2022\)](#), [District Consultation Council Minutes \(March 26, 2019\)](#), [KCCD Strategic Plan](#)). The annual Chancellor's Retreat is utilized to evaluate data, talk about strengths, and look at improvements with the outcome being the Targets and Tactics document produced by each college and sent to the KCCD Board of Trustees ([2023 Chancellor's Retreat Agenda](#), [Chancellor's Retreat Data Presentation](#), [Porterville College Targets and Tactics](#)).

Standard 2: Student Success

2.1

Academic programs at all locations and in all modes of delivery are offered in fields of study consistent with the institution’s mission and reflect appropriate breadth, depth, and expected learning outcomes.

Consistent with the Institution’s mission, academic programs are structured to lead to degrees, certificates, transfers, employment, or other similar credentials. Porterville College offers a variety of associate degree and certificate program options. All credit-bearing courses lead to a degree or certificate, and several degrees specifically address transfer expectations and efficiencies by adhering to the Associate Degree for Transfer framework—a curricular transfer agreement between California Community Colleges and California State University ([Porterville College Catalog 2024-2025](#)).

Academic programs are listed in the Porterville College Catalog ([Porterville College Catalog 2023-2024](#)). This publication helps the College communicate course and program offerings to students and the community. The College offers a breadth and diversity of choices in courses and programs for various educational goals. The catalog includes Program Learning Outcomes (PLOs) for all programs, ensuring transparency and clarity when communicating expectations.

The Institution’s curriculum design and development processes ensure all academic programs align with the Institution’s mission. Courses and programs reflect Porterville College’s mission and values ([Mission and Values](#)). The review process outlined in the Curriculum Handbook ensures that programs and courses are only added if they are “consistent with the College mission” ([Curriculum Handbook](#)). The curriculum approval process makes certain that all courses and programs are thoroughly vetted before they are added to the offerings and that they are reviewed at a minimum every four years (two years for Career Education courses). All program and course proposals begin with a faculty originator and are approved by the division. Then, a workgroup consisting of the Curriculum Chair, the Curriculum Specialist, the Outcomes Coordinator, and experienced faculty scrutinize the proposal, offer feedback, and suggest changes to the originator. Once the technical review workgroup is satisfied, the proposal moves to the Curriculum Committee for approval. If approved by the Curriculum Committee, the course or program must be approved by the Vice President of Instruction, the President, the Vice Chancellor of Educational Services, the Board of Trustees, and the California Community Colleges Chancellor’s Office (CCCCO) before implementation at Porterville College ([Curriculum Handbook](#)).

Every program at the College, instructional and non-instructional, undergoes a program review every three years. The workflow of this process is outlined in the Program Review Handbook ([Program Review Handbook](#)). The Strategic Planning Committee oversees this process, including multiple checks using the program review rubric ([Program Review Assessment Rubric](#)), verifies the alignment of programs to the College’s mission, and ensures assessment and calibration of transfer/workforce goals.

The Institution’s curriculum design and development processes reflect generally accepted practices in higher education to ensure breadth, depth, and rigor appropriate to the level of

instruction and across all modalities. To maintain consistency throughout modalities, the Curriculum Committee utilizes the state-required Distance Education Addendum, a form completed for all online or hybrid courses ([Curriculum Handbook](#)). Porterville College courses are normed with the other California Community Colleges through the California Community Colleges Curriculum Inventory (COCI) ([California Community Colleges Curriculum Inventory \(COCI\) About Page](#)). This system ensures consistency and alignment with community college courses across the state. Also, courses are normed with the California State University and the University of California systems, and many of the independent colleges and universities throughout California through the Course Identification Numbering System (C-ID) ([Course Identification Numbering System \(C-ID\) About Page](#)). The curriculum approval process requires courses to align with C-ID regarding breadth, depth, and rigor or justify any variation ([Curriculum Handbook](#)).

The curriculum development software, eLumen, requires C-ID notification of changes for all applicable classes. Finally, articulation agreements with universities show that the College's level of instruction is appropriate ([Articulation Agreements](#)). The Curriculum Committee carefully considers if the course's breadth, depth, and rigor can be maintained regardless of the modality and does not permit different depth/rigor for different modalities for the same course.

Though the current endeavor to predict student demand and anticipate fluctuating modality needs is complicated, the practices and procedures in the Curriculum Committee, Distance Education Committee, Outcomes Committee, Enrollment Management Committee, and Strategic Planning Committee ensure that the College is providing courses and programs that meet student need and allow for intentional growth.

Another way Porterville College maintains consistency across modalities is by requiring that all instructors teaching in an online or hybrid capacity undergo rigorous training in the form of in-house workshops, Kung Fu Canvas ([Kung Fu Canvas Syllabus](#)) and Intro to Online Teaching and Learning (IOTL) ([Intro to Online Teaching and Learning \(IOTL\) syllabus IOTL Canvas Modules, IOTL Syllabus](#)), as well as the California Virtual Campus @One training. The combination of courses has proven fruitful as Porterville College has seen gains in the success rates of online courses ([Course Success Rates by Modality in 2018-19 through 2022-23](#)). Distance education has been growing at Porterville College since its inception with careful monitoring by the Distance Education Committee. The group discusses and establishes the processes and procedures for the College's online and hybrid classes. The Distance Education Plan ([Porterville College Distance Education Plan](#)) outlines these processes and procedures and guides instructors in best practices.

Because Porterville College is committed to maintaining rigor, standards, and outcomes regardless of the course location or modality, it strives to ensure consistency through the dual enrollment courses. In the spring of 2024, Porterville College offered 76 sections of dual enrollment courses ([PC Early College Master Spreadsheet Spring 2019, Porterville College 2024-2025 Course Requests](#)). Instructors for these courses are vetted as rigorously as those for the courses taught on campus, and beginning in 2024, the dual enrollment instructors are evaluated the same way as all other faculty members ([Burton School District MOU Dual Enrollment](#)).

In addition to the checks and balances that the Curriculum Committee and the program review process provide, Porterville College aligns Student Learning Outcomes (SLOs) to Program Learning Outcomes (PLOs), General Education Learning Outcomes (GELOs), and Institutional-Level Outcomes (ILOs) ([Outcomes Page](#)). To ensure that all outcomes are aligned with the College's mission, all outcomes have been mapped to the ILOs, which were developed to reflect the mission ([Porterville College Outcomes Database](#)).

The College continues to monitor and refine those practices and procedures as necessary to eliminate success gaps between modalities, meet students' ever-changing modality needs, and establish programs that will give students a wide range of diverse opportunities in the future.

2.2

The institution, relying on faculty and other appropriate stakeholders, designs and delivers academic programs that reflect relevant discipline and industry standards and support equitable attainment of learning outcomes and achievement of educational goals.

Porterville College endeavors to offer academic programs that meet the needs of students, adhere to rigor and standards within each discipline, and remain relevant and timely in the industries surrounding the school. The College does so with an ever-scrutinizing eye for identifying and reducing equity gaps in all success metrics.

The Institution's curriculum design and development processes include appropriate faculty oversight for ongoing review, monitoring, and revision of programs to close identified gaps in student achievement. The Curriculum Committee drives the design of Porterville College's academic programs. Faculty members create a proposal for a program with input and guidance from colleagues within their divisions, consultation with experts, and advice from local stakeholders, businesses, and community members. Then, the proposal is reviewed for technical issues by the Curriculum Chair, Curriculum Specialist, Outcomes Coordinator, and experienced faculty members. The workgroup gives feedback to the originator, and then the proposal moves to the Curriculum Committee, where a representative from each division on campus votes on its approval. Similarly, faculty members on the Curriculum Committee are responsible for routine course and program revision as required by the California Community College Chancellor's Office (CCCCO) and the PC Curriculum Handbook ([Curriculum Handbook](#)).

The College's program review process includes the review of learning outcomes assessment and informs relevant changes to the curriculum. During the program review process, division faculty analyze appropriate data to ensure that any gaps in student success are highlighted, discussed, and attended to. Also, the review process allows each program to summarize its assessments of the learning outcomes. The division explains how they currently evaluate outcomes and student achievement and look for ways to improve in that endeavor ([Program Review Handbook](#)).

The Course Identification Numbering System (C-ID) helps to align courses and programs to established and agreed-upon curriculum content across California Community Colleges, California State University, and the University of California systems. If faculty determine that a course requires a variation of some sort, they must justify that modification with the Course Unit Value/Contact Hour Justification Form ([Curriculum Handbook](#)).

The Institution's curriculum design and development processes include dialogue around student equity and maximizing equitable student success outcomes. In accordance with its mission ([Mission and Values](#)), Porterville College ensures that the curriculum is consistent and appropriate at all locations and in all modalities. Course approvals require submissions to address how the course fits the most basic tenets of the Mission Statement through the following prompt: "... why the course is being added. Be clear regarding the evidence of the need to add this course (e.g., articulation with other colleges/universities, student demand, a recommendation from an advisory committee or external accreditation review, campus program review)." The submission also includes a justification referring to the division's program review. The program review and learning outcomes assessment processes generate consistent discussion of student equity and equitable success outcomes, and those conversations inform curriculum changes ([ENGR P130 Curriculum Development Submission](#), [Program Review Handbook](#)).

The Institution defines student learning outcomes for courses and academic programs (including degree and certificate programs). Current Program Learning Outcomes (PLOs) and Student Learning Outcomes (SLOs) are required components of every program and course as related in the Curriculum Handbook and the framework of the eLumen curriculum portal. PLOs and SLOs are developed collaboratively within the disciplines and divisions, are evaluated for effectiveness as part of the program review process, and are approved by the Curriculum Committee as part of the program and course approval process. The development of learning outcomes includes considering feedback from workforce/industry partners. The Educational Master Plan includes input from workforce and community partners to inform broad expectations for programs and program development. This planning process also includes quantitative environmental scans to ensure workforce data is integrated into the plan ([Educational Master Plan](#)). Additionally, advisory committees for Career Education and Health Careers programs inform curriculum content, and therefore learning outcomes, as a regular part of their function ([Welding Advisory Committee Meeting \(April 28, 2023\)](#), [Law, Justice, and Ethics Advisory Committee Meeting \(August 24, 2022\)](#), [Health Careers Advisory Committee Meeting Minutes \(December 12, 2019\)](#), [Health Careers Advisory Committee Meeting Minutes \(July 8, 2020\)](#), [Health Careers Advisory Committee Meeting Minutes \(July 7, 2021\)](#), [Health Careers Advisory Committee Meeting Minutes \(August 1, 2022\)](#), [Health Careers Advisory Committee Meeting Minutes \(November 3, 2023\)](#)).

The Institution provides students with accurate, current, and consistent student learning outcomes for courses and programs. The catalog communicates the PLOs for all instructional programs ([Porterville College Catalog 2023-2024](#)). The course-level SLOs are published in all course syllabi. The instructors send syllabi to administrative assistants who cross-check the learning outcomes against those in the course outline of record. Then, the syllabi are filed in the Vice President of Instruction's office at the start of each semester ([Syllabus for ADMJ P101 CRN 51574](#), [ADMJ P101 SLOs](#), [Syllabus for COMM P101 CRN 50031](#), [COMM P101 SLOs](#), [Syllabus for ENGL P101A CRN 50042](#), [ENGL P101A SLOs](#)).

Porterville College's systems of checks and balances, including learning outcomes assessment, program review, and curriculum development, ensure that the College is constantly striving to make Porterville College a path to achievement for all students. Of course, in a continually changing world, these practices require continual attention, and the College must be diligent in

attending to and balancing the needs of students, the surrounding community, and industry partners to remain relevant and valuable.

2.3

All degree programs include a general education framework to ensure the development of broad knowledge, skills, and competencies related to communication, quantitative reasoning, critical thinking, information literacy, and the ability to engage with diverse perspectives.

The Institution has a rationale for general education, developed with appropriate input from faculty, which serves as the basis for inclusion of courses in general education and is listed in the catalog. Providing a general breadth of knowledge for all degree-seeking and transfer-bound students is a high priority at Porterville College. Every degree the College offers requires the general education program as a foundation of higher learning and good citizenship. These requirements are communicated through the College catalog ([Porterville College Catalog 2022-2023](#), [Porterville College Catalog 2023-2024](#)). Porterville College aligns the general education program with that of the four-year university partners through the articulation process ([Articulation Agreements](#)).

The local process for submitting programs, courses, and certificates is outlined in the Curriculum Handbook ([Curriculum Handbook](#)). This guide explains the submission process and includes new course/program submission forms, requirements for communication before curriculum approval, an explanation for utilizing eLumen, a description of how and when the proposal should be submitted to the Curriculum Committee, the Board, and the state, and the procedure for completing the final step, addition of the materials to the College catalog.

The process for submitting and approving courses, programs, and certificates is as follows:

1. Item added to eLumen by faculty
2. Curriculum Committee approves the item
3. Item submitted for Board approval
4. Item submitted to COCI
5. Item added to the catalog

This process includes several steps for checks and balances to ensure consistent and accurate information.

The Institution's general education philosophy reflects its degree requirements and is consistent with expected norms in higher education for lower-division coursework. The College revises the general education pattern as necessary to stay current with local, state, and national educational standards. In fall 2022, the College developed a General Education (GE) Subcommittee of the Curriculum Committee to evaluate current definitions of GE at Porterville College and to get updated definitions from all disciplines in the GE areas ([General Education Workgroup Agenda \(October 4, 2022\)](#), [General Education Updates Overview](#), [General Education Workgroup Agenda \(October 4, 2022\)](#), [General Education Workgroup Agenda \(October 18, 2022\)](#), [General Education Workgroup Agenda \(November 15, 2022\)](#)). These definitions were then utilized to evaluate whether courses were a good fit to meet that GE description. Recommendations were discussed and submitted to the Curriculum Committee by November 22, 2022 ([Curriculum](#)

[Committee Minutes \(November 22, 2022\)](#), [Curriculum Committee Minutes \(January 24, 2023\)](#), [Curriculum Committee Minutes \(February 14, 2023\)](#), [Curriculum Committee Minutes \(February 28, 2023\)](#)). In spring 2023, the Curriculum Committee voted to revise the General Education criteria to suit students' needs better. The committee reduced the number of units from 33 required in the 2022-2023 school year to 24 in the 2023-2024 school year. With the more specific definitions for each area, the group was able to pinpoint the necessary knowledge, skills, and competencies necessary for success in both transfer to four-year universities and/or positions in local industries without requiring superfluous classes and units ([General Education Workgroup Agenda \(October 4, 2022\)](#), [General Education Workgroup Agenda \(October 18, 2022\)](#), [General Education Workgroup Agenda \(November 15, 2022\)](#)).

The Institution's general education offerings provide opportunities for students to engage with the arts and humanities, sciences, mathematics, and social sciences. The College's transfer students primarily go into the California State University (CSU) or University of California (UC) systems, and the College has strong partnerships with both. California Assembly Bill 928 ([California AB 928](#)) requires the creation of a new aligned general education pattern across the CSUs and UCs by 2025, and Porterville College faculty are in the process of updating all transfer degrees to align to the requirements of AB 928 and the new CALGETC general education pattern ([Cal-GETC Standards 2023](#)). Additionally, Section 55061 of the California Education Code delineated the overarching requirements of the general education requirements of a California Community College Associate Degree, which includes arts and humanities, science, mathematics, and social science ([Section 55061 of California Education Code](#)).

To ensure learning is happening, the College has continual discussions and analyses of the General Education Learning Outcomes (GELOs) ([Outcomes Page](#)). The Outcomes Coordinator attends every Curriculum Committee meeting to facilitate assessment. The Curriculum Committee first decides if the GELO should be revised and, if so, works with the division representatives to do that before the assessment. Then, the data is collected. This process has taken two forms: first, gathering completed SLO cycle information from the courses mapped to the GELO, and second, gathering assessments and sample student work from those courses. The committee discusses the data and creates a specific, actionable plan for improvement ([Action Plan for GELO #5](#)). The Outcomes Coordinator oversees the implementation and checks in with the point person(s) at the designated meeting ([Curriculum Committee Meeting Minutes \(March 12, 2024\)](#)).

2.4

The institution communicates clear, accurate, and accessible information regarding programs, services, and resources that foster success in students' unique educational journeys.

The primary method for communicating all College information is the Porterville College website. The site is a vital tool for students attending the Institution, prospective students, and community members. The most relevant information to a student's success in their unique educational journey is easily accessible through the homepage and the catalog.

The Institution provides students with accurate, current, and consistent student learning outcomes for courses and programs. The catalog communicates the PLOs for all instructional

programs ([Porterville College Catalog 2023-2024](#)). The course-level SLOs are published in all course syllabi. The instructors send syllabi to administrative assistants who cross-check the learning outcomes against those in the course outline of record. Then, the syllabi are filed in the Vice President of Instruction's office at the start of each semester ([Syllabus for ADMJ P101 CRN 51574](#), [ADMJ P101 SLOs](#), [Syllabus for COMM P101 CRN 50031](#), [COMM P101 SLOs](#), [Syllabus for ENGL P101A CRN 50042](#), [ENGL P101A SLOs](#)).

The Institution has mechanisms for ensuring effective communication with its students in multiple modalities regarding the programs, services, and resources available to support the student journey. The Institution communicates all program, service, and resource information in the catalog ([Porterville College Catalog 2023-2024](#)). The Porterville College catalog is reviewed every year by members of the faculty and student services constituencies. All members of the Catalog Review Group ensure alignment throughout the catalog with respect to the various programs, services, and resources offered at Porterville College. The Catalog Review Group uses this collegial collaboration to make sure the College clearly communicates accurate and accessible information regarding programs, services, and resources. The catalog is available on the College website in readable text and can be printed upon request. For simplicity purposes, various printed flyers and documents regarding all manner of information are available within their relevant areas. The College website provides simple and timely access to all services, resources, student groups, governance, outreach, and ancillary information. Updates to the website are routine and fall under the responsibility of individual service areas and departments.

Classes and programs are updated through eLumen, the integrated platform for curricular management ([Faculty Guide to eLumen](#)). Using eLumen ensures that when changes are made to the course or program outline of record, those changes are automatically reflected in the catalog so that information is accurate and consistent across various mediums. The public site of eLumen allows for outside viewing of the programs and courses ([Porterville College Curriculum Public View \(eLumen\)](#)).

To provide transparency, many committees have meetings that are open to the public, and all committee minutes are published for outside viewing ([Porterville College Committees, KCCD Board Minutes \(July 18, 2024\)](#)).

Every course syllabus includes an accommodation statement and the course Student Learning Outcomes. Many instructors also choose to include a list of campus resources, learning support services, information about the Veterans Resource Center, and various other helpful areas that might be useful.

An innovative approach to informal communication across campus comes in the form of *News from the Crow's Nest*, a newsletter from the Porterville College Marketing and Communication Department ([News from the Crow's Nest](#)). The weekly publication is emailed to everyone in the campus community, and a daily form is available on social media.

The Institution regularly reviews its communication practices, policies, and procedures to ensure clarity, consistency, accuracy, and relevance. As noted above, the Catalog Review Group evaluates and updates the non-curricular aspects of the catalog. Curriculum aspects such as programs, courses, and graduation requirements are updated through routine and non-routine

curricular changes through the Curriculum Committee and according to the Curriculum Handbook ([Curriculum Handbook](#)). The public information officer routinely communicates with constituent groups through the College Council to identify communication issues and opportunities through all modalities. The College and District have recently begun working with the California Community College Accessibility Center to implement the Accessibility Capability Maturity Model (ACMM), which seeks to evaluate improvement in every aspect of communication and establish embedded and consistent processes for continuous improvement ([Accessibility Capability Maturity Model \(ACMM\) Baseline Report](#)).

2.5

The institution holds itself accountable for students' success by scheduling courses in a manner that ensures degree and certificate programs can be completed in the expected period of time.

The Institution schedules classes that align with student needs and program pathways to ensure students can complete programs within a reasonable timeframe. Porterville College holds itself accountable for students' success by scheduling courses to ensure degree and certificate programs can be completed in the expected period.

The College monitors students' progress and verifies they are on track to complete their programs within the expected timeframe. It uses delivery modes and teaching methodologies that meet student and curricular needs and promote equitable student learning and achievement. These pieces of evidence demonstrate that Porterville College is committed to ensuring that its students can complete their degree and certificate programs within the expected timeframe.

Porterville College has developed clearly defined program pathways for its degree and certificate programs. These pathways outline the courses that students need to take each semester to complete their programs within the expected timeframe. Guided Pathways allow students to move through their courses more deliberately and efficiently using units ([Academic and Career Pathways](#)).

The Enrollment Management Committee, which consists of academic division chairs, the Academic Senate President, and most academic administrators, evaluates the schedule every semester and adjusts overarching course times and modalities based on current demands and student needs ([Enrollment Management Agenda \(February 26, 2024\)](#), [Enrollment Management Minutes \(February 26, 2024\)](#)). The counseling chair has a standing agenda item in each meeting to discuss student scheduling and enrollment issues influencing decision-making.

Though Porterville College regularly analyzes data related to student progress and program completion rates to identify areas for improvement and adjust its scheduling and support services as needed, the College is limited on space and available faculty. Particularly during the busiest times on campus (Monday through Thursday from 9:00 a.m. until 2:00 p.m.), the College does not have enough classrooms to hold all of the courses that could be scheduled to meet student needs. Instead, those courses are moved online or to a different time, and the enrollment drops. Because of its remote, rural location, adjunct faculty who teach in person are difficult to find, and face-to-face classes are hard to staff. In fall 2024, the College seeks to utilize Ad Astra analytical data and scheduling summits to evaluate efficiencies and opportunities for students.

The limits of space and resources are just one of the many issues related to scheduling and course offerings that are discussed frequently in the Enrollment Management Committee. Each agenda has a standing item for discussion specifically to address solutions and to monitor changes ([Enrollment Management Agenda \(February 26, 2024\)](#), [Enrollment Management Minutes \(February 26, 2024\)](#)).

The Institution evaluates the degree to which scheduling facilitates the timely completion of degrees, certificates, and transfers. The College monitors the progress of students and ensures that they are on track to complete their programs within the expected timeframe and uses delivery modes and teaching methodologies that meet student and curricular needs and promote equitable student learning and achievement. Porterville College is committed to ensuring its students can complete their degree and certificate programs within the expected timeframe. Programs of study are efficiently organized around required courses, which are intentionally scheduled to maximize opportunities for timely completion.

Porterville College has established a course sequencing plan for each program pathway. This plan ensures that students take courses in the proper sequence to build upon previous knowledge and skills. In spring 2023, each discipline completed a two-year plan for course offerings so counselors, educational advisors, and students can plan with confidence, knowing which classes can be taken during which semester and in what modality ([ENGL P101A Two-Year Plan, Enrollment Management Minutes \(February 27, 2023\)](#)). This information is inputted into Pathways Mapper, the student-facing website platform that outlines the course sequences of the academic and career pathways as a detailed visual course guide ([Pathways Mapper \(Explanation\)](#), [Pathways Mapper for Agribusiness](#), [Pathways Mapper for Business, Information Systems, & Industry](#)). Also, Porterville College strives to give incoming students credit for prior learning and, in spring 2023, revamped the credits for high school advanced placement (AP) classes to eliminate duplication and unnecessary units ([Curriculum Committee Minutes \(November 14, 2023\)](#), [Curriculum Committee Minutes \(November 28, 2023\)](#)).

The College offers courses during the summer term to help students complete their programs faster. The College offers a variety of fast-track and late-start courses to accommodate students with busy and complex schedules. Porterville College offers various student support services to help students stay on track and complete their programs on time. These services include academic advising, tutoring, and career counseling ([Student Support Services](#)). The Promise Program serves first-time college students through their first year with a comprehensive plan of support to complete their educational goals ([Promise Program](#)). Throughout their educational journey, students are encouraged to use the learning support resources provided in the Learning Center and the Innovation Centers.

As a member of the California Virtual Campus—Online Education Initiative (CVC-OEI) ([California Virtual Campus—Online Education Initiative \(CVC-OEI\)](#)), Porterville College has opened the door to a variety of online classes that meet its students' needs for timely completion and opened access to its online courses to students throughout the state.

More recently, Porterville College has held summits to design specific pathways for each local high school, tailored to their career tracks and academies ([Porterville College & Granite Hills High School Summit Meeting Agenda \(March 8, 2024\)](#), [Porterville College & Monache High](#)

[School Dual Enrollment Summit Meeting \(February 9, 2024\)](#), [Porterville College & Summit Charter High School Dual Enrollment Summit Meeting \(April 5, 2024\)](#)). Each high school had a separate summit so that the focus could zero in on the best fit for that school.

The Institution reflects on time-to-completion data in program review and institutional evaluation and devises plans to improve completion rates. Porterville College regularly analyzes student progress and program completion data to identify areas for improvement and adjust its scheduling and support service. The Enrollment Management Committee regularly uses data on student enrollments, including course fill rates, and has broad discussions on topics including scheduling, days and times when courses are offered, and course modalities.

The College tracks completion through the Strategic Plan, focusing on student success and equity. The most recent plan noted that the College increased the three-year completion rate from 20% for our incoming fall 2013 cohort to 26 percent for the 2016 cohort, with a goal of 30 percent for the 2019 cohort. Similarly, the College is focused not only on on-time completion but also on efficiency. The College has reduced the number of units completed by associate degree recipients from 90 to 83 in recent years, with a goal of reducing it further to 79. The College is currently developing the next Strategic Plan, which will establish new goals ([Porterville College Strategic Plan](#)).

In addition to measuring actual completion, the College assesses student perception through the Student Satisfaction Survey. In the spring 2024 iteration of the survey, 90 percent of students strongly or somewhat agreed that Porterville College offers the programs, degrees, and certificates they need, and 86 percent agreed that they are usually able to get the classes they need when they need them ([Survey Reports](#)).

2.6

The institution uses delivery modes and teaching methodologies that meet student and curricular needs and promote equitable student learning and achievement.

The Institution regularly evaluates the effectiveness of its delivery modes and teaching methodologies to support equitable student learning and achievement and uses results to guide improvements. The learning outcomes assessment and program review processes provide the baseline expectations for evaluating effective instruction and student learning. Other initiatives, such as REACH, IEPI, and more focused departmental interest, provide additional opportunities for evaluation of effectiveness. Porterville College's academic programs at all locations, in all modes of delivery, and in all fields of study align with the Institution's mission ([Mission and Values](#)), ensuring that support services and resources are available to students whenever, wherever, and however they need them. The College evaluates student learning and achievement data to inform improvements and advance equitable outcomes. The College promotes equitable student learning and achievement by ensuring that resources, programs, and services are in place to support student success, regardless of the delivery mode or location of the program ([Program Review Handbook](#)).

Porterville College offers a range of online, hybrid, and hyflex courses to meet the needs of its diverse student population. These courses provide flexibility for students with work or family

commitments who cannot attend traditional in-person classes or prefer an online learning environment.

Porterville College promotes inclusive teaching practices that ensure equitable student learning and achievement. Faculty members are trained to use inclusive language, create an inclusive classroom environment, and design fair and unbiased assessments. Peer Online Course Review (POCR) has gained momentum in the last four years ([Peer Online Course Review \(POCR\)](#)). Porterville College boasts 21 instructors who have had 35 courses approved ([List of POCR Certified Instructors](#)). To have a course approved by the California Virtual Campus—Online Education Initiative (CVC-OEI), the instructor must adhere to a rubric and be aligned in four sections: content presentation, interaction, assessment, and accessibility ([CVC OEI Course Design Rubric](#)).

The College uses active learning techniques in its courses, which promote student engagement and improve learning outcomes. These techniques include group discussions, problem-based learning, and hands-on activities. Most courses in the Natural Science Division have a lab component that allows students to interact physically with the materials and concepts they are studying. Health Careers' courses use simulation labs and clinical hours to meet the unique needs of students.

Porterville College adopts a student-centered approach to teaching, which means that the needs and interests of students are central to the course design and delivery. Faculty members take the time to get to know their students, understand their learning styles, and tailor their teaching to meet their individual needs. The College provides professional development opportunities for its faculty members to improve their instructional skills and stay current with the latest teaching methodologies. These opportunities include workshops, conferences, and training sessions. The College offers the Student-Centered Teaching Workshop, a four-day intensive deep dive on addressing the affective domain continuously throughout the semester ([Student-Centered Teaching Workshop](#)). The workshop is required for English instructors who will be teaching English P101A with English P01AX, a corequisite course designed to support students with college-level composition. In May 2020, Porterville College began a homegrown, faculty-driven project called Quick Tips for Online Success ([Quick Tips for Online Success Web Page](#)). Seven faculty members from five different disciplines joined forces to offer colleagues tricks and hacks to help with online instruction. The presenters covered a wide range of topics, such as promoting student-to-student interaction, creating fun, and ensuring academic accountability. In each session, they focused their efforts on a single theme and delivered as many tips as possible in twenty minutes. The last ten minutes were reserved for unrecorded time for faculty to bond via Zoom when many felt disconnected from the College and their colleagues. In April 2023, Kern Community College District hosted the inaugural Teaching-and-Learning Exchange Festival (TALEFEST) ([TALEfest](#)). Faculty created and led the festival to promote sharing and discussion of peer-learning opportunities.

The course success achievement gap between in-person and distance education modalities is a testament to the effectiveness of the College's focus on equity and success. Success rates of distance education courses are routinely within 1 or 2 percent of that of in-person courses demonstrating Porterville College students are as likely to be successful in distance education sections as they are in in-person sections ([Course Success Rates by Modality](#)).

The Institution has practices in place to ensure ongoing alignment with federal requirements for distance education, correspondence education, and direct assessment, as defined in ACCJC's Policy on Distance Education and on Correspondence Education and Policy on Competency-Based Education. The College's Distance Education Plan ([Porterville College Distance Education Plan](#)), the Online Teaching Handbook ([Online Teaching Handbook](#)), and the Regular and Substantive Interaction Policy ([Regular and Substantive Interaction Policy](#)) clearly communicate all expectations for federal and ACCJC policy on distance education. Kern Community College District and, therefore, Porterville College is unique in that the collective bargaining agreement for faculty does not specifically preclude anyone from observing the instructional space during instruction. The importance of regular and substantive interaction (RSI) and an unusually agreeable relationship between faculty, staff, and administration helps focus all constituent groups on the goal. Consequently, the Distance Education Committee, a sub-committee of the Academic Senate, has delegated responsibility to the Assistant Director of Academic Technology and Professional Development to routinely spot-check all asynchronous online courses for appropriate RSI. Any identified issues are directed to the relevant Division Chair and addressed through normal procedures. Porterville College does not offer any correspondence courses ([Online Teaching Handbook](#), [Porterville College Distance Education Plan](#), [Regular and Substantive Interaction Policy](#), [Distance Education Policies, Guidelines, & Resources](#)).

Math and English placement are clear examples of how student learning and achievement data combined with the goal of equitable attainment have informed curriculum design and development. In compliance with California Assembly Bill 705 ([Assembly Bill 705](#)), Porterville College began placing all incoming students in transfer-level math and English in the fall of 2019 ([Math and English Placement Guides](#)). The AB 705 Workgroup, a collection of devoted instructors, administrators, counselors, and institutional researchers collaborating to create opportunities, support learning, eliminate equity gaps, and boost student success, made decisions for placement based on data and has continued to track students' progress to assess any placement policy changes that need to be made ([Minutes from AB705 Workgroup Meeting \(January 29, 2020\)](#)). Currently, the College is implementing Assembly Bill 1705 ([Assembly Bill 1705](#)), California's more recent measure to maximize equity in community colleges. AB 1705 goes further than AB 705 in limiting the number of prerequisite units and classes required of students outside their program of study.

In order to support equitable attainment of learning outcomes and achievement of educational goals, Porterville College strives to clearly communicate to students, faculty, administration, classified staff, and the community at large the benefits of its courses and programs. In this endeavor, the College has published the Outcomes Handbook, a straightforward guide to all College outcomes ([Porterville College Outcomes Handbook](#)). To further demystify the process of assessment, the College has conducted several workshops called Outcomes Fests. The Outcomes Coordinator tailors the seminar to the needs of the division or discipline and meets the participants where they are in the assessment cycle ([LAD Outcomes Fest Agenda October 2023](#)). Much of the discussion revolves around equitable attainment of learning outcomes.

The Strategic Planning Committee often focuses on equity and actively seeks areas where improvements in the college experience can be made for students. These suggestions are documented in the Strategic Plan ([Strategic Plan](#)). On top of setting goals for growth and student

success, the Strategic Planning Committee sets stretch goals, lofty but not entirely impossible objectives, for each category ([Strategic Planning Committee Minutes \(September 10, 2020\)](#), [Strategic Planning Committee Minutes \(April 22, 2021\)](#)). These numbers are identified by the committee at least every three years as they create the College's Strategic Plan.

Finally, support for the equitable attainment of learning outcomes and achievement of educational goals is also evident in the College's Student Equity Plan ([Student Equity Plan](#)). This document outlines a plan to embed equity throughout the fabric of Porterville College and keep its realization at the forefront of the College's collective consciousness.

2.7

The institution designs and delivers equitable and effective services and programs that support students in their unique educational journeys, address academic and non-academic needs, and maximize their potential for success. Such services include library and learning resources, academic counseling and support, and other services the institution identifies as appropriate for its mission and student needs.

The Institution designs and delivers effective processes for identifying students' academic, nonacademic, personal wellness, and basic needs. The mission of the Counseling and Advising Center ([Advising & Counseling Program Review](#)) is to foster and promote the academic, personal, and social development of Porterville College students by providing a wide range of services to help them resolve personal difficulties and acquire the skills, attitudes, and knowledge that will enable them to be successful in their journey. Counselors assist students in developing educational plans, prerequisite overrides, personal and academic counseling, and transfer and career exploration. Educational advisors assist students in reviewing educational plans, academic and career exploration, and transfer information. Additionally, the wellness counselor addresses mental and emotional health needs.

The College utilizes Navigate to assist students with access to various resources, including monitoring their academic progress ([Navigate](#)). The Early Alert process provides a portal for faculty or staff to identify to Student Services a student who may need strategic resources ([Early Alert](#)). Through projects like Caring Campus, the College has also sought to instill in every employee the importance of authentically connecting with students and providing a safe, welcoming environment.

The Institution designs and delivers effective intake and onboarding services such as orientation, registration, counseling, educational planning, financial aid workshops, and/or similar services that maximize preparation, success, and retention ([Student Services Links](#)).

The Institution designs and delivers effective learning support resources such as library collections, library instruction, learning labs, and tutoring services in various modalities (face-to-face, hybrid, online, etc.) dependent on institutional mission and student needs. The Porterville College Library is integral in many aspects of supporting student learning. Library staff review data to plan and provide improved services in the most equitable way possible. This process has led directly to the development of the Lending Library, a free service that allows students to borrow textbooks for the semester ([Lending Library Page](#)). Collections are built and maintained according to faculty and student needs, using multiple modalities to ensure equitable

access to the needed resources. The usage data gathered from Alma, the library catalog, also informs which databases the College subscribes to and renews, what materials are curated in which modality, and how the services are promoted ([Library](#)).

In addition to the Lending Library, departments such as the Veterans Resource Center (VRC) ([Veterans Resource Center \(VRC\)](#)), [Veterans Services FAQ](#)), Extended Opportunity Program & Services (EOPS) ([Extended Opportunity Program & Services \(EOPS\)](#)), CalWORKs ([CalWORKs](#)), and Disability Resource Center (DRC) ([Disability Resource Center \(DRC\)](#)) also provide free lending library opportunities to students that qualify with books and technology/equipment.

Academic Support Services is comprised of the Porterville College Library, the Learning Center, and the Innovation Centers (Business Innovation Center, Literacy Innovation Center, and STEM Innovation Center) in partnership with Information Technology's Computer Commons. Academic Support Services aims to support student achievement in coursework and student retention by providing inclusive opportunities for access to instructional materials, databases, textbooks, technology, research assistance, peer tutoring, peer technology navigation, group study sessions, peer academic mentoring, and experiential learning. Academic Support Services also supports faculty professional development focused on effective teaching and learning. In collaboration with faculty, Academic Support Services provides programming to support educational equity efforts on campus by providing culturally responsive education and training to peer educators, empowering students as leaders, reinforcing what is taught in the classroom, and creating transformative learning experiences for students.

To meet the needs of students, Academic Support Services are offered in various modalities and timeframes to ensure students can access resources. Study and virtual reality rooms in the Library, Learning Center, Innovation Centers, and Computer Commons can be booked online or in-person for students to utilize ([Study and Virtual Reality Rooms Booking Page](#)). Porterville College provides in-person and virtual tutors ([Tutor and Mentor Schedule Summer 2024](#)). STAR-CA is the online tutoring tool that enables students to meet with Porterville College tutors as well as twelve other California Community Colleges who share their tutors through the service. NetTutor is a third-party 24/7 online service program to provide further flexibility to students outside of the department's hours of operation. Both platforms are available through the Virtual Academic Support Services Canvas Shell.

The Learning Center and the Innovation Centers have partnered with the Disability Resource Center in a monthly workshop where the group discusses various policies and procedures to determine institutional barriers that can be removed for students with accommodations. The data also inform the need for additional professional development to better understand diversity, equity, inclusion, and accessibility issues. Therefore, the Academic Support Services Student Worker program was redesigned to move CRLA training to before the semester begins (and eventually, a non-credit certificate of competency program) and utilizing the bi-weekly mandatory student worker meetings to ensure that each meeting discusses different marginalized groups to give students the ability to tell their story/intersectional identity and to understand better the stories of the students they serve.

The Institution designs and delivers effective student support services such as counseling, academic advising, first-year experience, veterans services, disability services, mental health services, etc., in a variety of modalities (face-to-face, hybrid, online, etc.) dependent on institutional mission and student needs ([Student Support Services](#)).

To support dual enrollment students, counselors and educational advisors are assigned to visit all local high schools, including schools from Porterville Unified School District, Lindsay School District, and Burton School District, to have abbreviated student educational plans (ASEP) for students at the high school campuses. Visits occur monthly in coordination with the high school partners. Counselors and educational advisors are all trained to discuss early college options as well as Guided Pathways, career and major exploration options, registration, college services, resources, and program-specific information.

The Institution provides clear information and support for students regarding transfer and career opportunities ([PC Career Skills Workshop Announcements](#), [PC Pathfinder Program Review](#), [PC Transfer Center Discord](#), [PC Transfer Announcement](#)).

The Institution's documentation of and communication to students (catalogs, policies, procedures, etc.) regarding support services and expectations for their use are clear and consistent ([Student Success Page](#), [Student Success Handbook \(English\)](#), [Student Success Handbook \(Spanish\)](#)).

The Institution systematically collects and analyzes disaggregated data to evaluate the effectiveness of its support services and learning support resources in supporting equitable student success, and the results are used for planning and improvement. Program reviews for all support areas are routine and thorough and depend upon disaggregated data to evaluate effectiveness. Program reviews are presented to the Strategic Planning Committee and College Council for review and information that informs future planning. Additionally, resource requests are expected to align with the outcomes and data evidenced in the program review ([Advising and Counseling Program Review](#), [Library Program Review](#), [LRC Program Review](#)).

2.8

The institution fosters a sense of belonging and community with its students by providing multiple opportunities for engagement with the institution, programs, and peers. Such opportunities reflect the varied needs of the student population and effectively support students' unique educational journeys.

The Institution creates formal and informal opportunities for students to engage with the Institution, programs, and peers (for example, cultural, academic, clubs, political, ethnicity-based engagement, networking, athletics, internships, and career training).

The College has implemented two academic programs to foster belonging: Puente and UMOJA. The Puente Program has created a sense of belonging for the students in a strong way through “familia.” Puente students are part of an annual cohort in which they have at least three classes together, enabling them to interact with each other and engage in their courses by building community in the form of a network. Umoja is a program dedicated to the belief that when the

voices and histories of students are deliberately and intentionally recognized, the opportunity for self-efficacy emerges, and a foundation is formed for academic success.

The Associated Students of Porterville College (ASPC) and its various clubs engage students based on major, cultural, political, and other interests ([Associated Students of Porterville College \(ASPC\)](#)). Events such as the Pride Flag Ceremony or the Pride Club Tea Party are a way to help students feel like they are a part of the larger college community ([Video of Pride Flag Ceremony](#), [Pride Club Tea Party Poster](#)). ASPC serves as the student voice, promoting a diverse and inclusive campus culture that supports the College's mission, vision, and values. ASPC aims to represent Porterville College students through the participatory governance process, promote cooperation among faculty, students, and staff, and stimulate intellectual, physical, social, and cultural goals by sponsoring educational and co-curricular programs.

Another way Porterville College encourages community is through the Student Ambassador Program ([Student Ambassador Program](#)). With this on-campus job opportunity, students serve to represent the College through campus events and outreach efforts. Student Ambassadors give campus tours, serve at campus events, assist at the front counter spaces, and attend outreach events.

At Porterville College, learning does not stop at the classroom door. In spring 2023, Alpha Chi Mu, Porterville College's chapter of the Phi Theta Kappa Honor Society, went to Ohio, where they were recognized nationally. During the 2022-23 and the 2023-24 school years, the Puente Program, art students, Student Life, Rising Scholars, and other groups have taken students to conferences, cultural trips, and university tours in Los Angeles, Sacramento, and other locations in California. In January 2022 and 2023, staff and faculty chaperoned PC students who had been chosen as Eisenhower Global Transportation Fellows to Washington, D.C., to attend the Department of Transportation Federal Highway Administration Conference.

Additionally, the Porterville College Safe Zone program was created as a way for the campus to create a supportive environment for the LGBTQIA+ community ([Safe Zone Program](#)). Many faculty have attended Safe Zone workshops and publicly identify themselves as making an effort to understand and support the needs of the LGBTQIA+ community. Finally, the Social Justice Action Committee examines past and present processes, procedures, and everyday interactions impacting students. Through this examination, the committee identifies and addresses current and historical injustices in the institutional culture ([Social Justice Action Committee](#)).

Intercollegiate athletics provides multiple opportunities for students to engage with their peers and the community. Intercollegiate athletics often serve as the "front door" to an institution, allowing students, community members, and families to participate and support the College. Porterville College currently offers twelve intercollegiate sports ([Become A Member of the PC Pirates Family!](#)), all competing in the Central Valley Conference and boasting nearly 100 on-campus home sporting events.

Since 2017, Porterville College has brought back opportunities for students to participate in choir and band. Through participation in music programs, students build community by working in groups toward a common goal and following their shared artistic passions. Music programs also provide opportunities for Porterville College to engage with the larger Porterville community.

Local residents attend music events, show support for their friends and family members who are performing, and see how talented Porterville College students are.

The Cultural and Historical Awareness Program (CHAP) is a unique group at Porterville College focused on bringing speakers to campus on various topics to improve student and community awareness of the world around them and significant events occurring throughout the nation and world. Recent CHAP presentations have included “Women and the Environmental Movement” and “The Anthropocene” ([Cultural and Historical Awareness Program \(CHAP\) Spring 2023 Schedule](#)).

Other celebrations and events that foster a sense of belonging at Porterville College are the Grad Fair ([Grad Fair Flyer](#)), Job Fair ([Porterville College Job Fair](#)), Scholarship Ceremony ([Scholarship Ceremony 2023](#)), Distinguished Student ([Distinguished Student](#)), and Cesar Chavez Day Event ([Cesar Chavez Day Celebration](#)).

The Institution establishes co-curricular and/or student engagement activities based on the needs of the students and community it serves, including the needs of student populations that have been historically under-resourced.

Programs like EOPS, CARE, CalWORKs, DRC, and NextUp/Foster Youth encourage lifelong learning and provide opportunities through workshops that help students with health and wellness, financial literacy, and career development ([EOPS Workshop Flyer](#), [Foster Youth Flyer](#)). DRC, EOP&S, and the NextUP/Foster Youth programs host their orientations on Canvas and utilize that tool to keep students engaged with their programs and make announcements on opportunities for their students' betterment. The Transfer Center developed a Discord Server for students in response to the pandemic to assist students with meeting other students, developing study groups, and interacting with clubs and services like tutoring and mentoring. Discord connects students with CSUs, UCs, and private university representatives. It is also where the College's Transfer Fair was hosted during the pandemic ([Discord](#)).

One of the most important populations to consider for inclusivity in the College community is first-generation college students. Because most Porterville College students are first-generation ([“What We Know About PC First Generation College Students” Research Brief](#)), it is responsible for encouraging and assisting them as they navigate the unknown. Porterville College celebrates First-Generation Day on November 8. It is a day to commemorate those first-generation students who have overcome challenges and barriers on their way to earning a college degree. In honor of first-generation students, Porterville College hosted a series of events during November 7-10, 2022 ([First-Generation Week Event Flyer](#), [First-Generation Week Video](#)).

Porterville College was selected to participate in the Rising Scholars Program for incarcerated or formerly incarcerated students in the College's service area. Including incarcerated and formerly incarcerated students in higher education is core to the California Community College mission ([California Community Colleges Mission](#)), critical to the Chancellor's DEI Call to Action ([Diversity, Equity, Inclusion, and Accessibility Call to Action](#)), and closely aligns with the *Vision for Success* ([Vision for Success](#)) goal to reduce equity gaps among traditionally underrepresented student groups. The program's principal objective will be to expand the number of

justice-involved students participating and succeeding in their educational goals. Porterville College has provided incarcerated students the opportunity to complete college transfer certificates and transfer degrees. Education is critical to reducing recidivism, improving behavior, and being better prepared to re-enter the community and support themselves and their families once released. Porterville College will implement new education programs in the South Tulare County Detention facility and Tulare County Juvenile Detention facilities ([Rising Scholars Program](#)).

The Institution ensures the quality of programs that foster belonging with frequent qualitative and quantitative assessment.

To adequately serve the Porterville community, the College must know that community. Porterville College is in perpetual pursuit of knowing its students and potential students better. One way the College familiarizes itself with students' wants and needs is through the Community College Survey of Student Engagement (CCSSE). The College conducts the CCSSE every three years and creates goals in the Strategic Plan to improve the weakest areas of engagement. Those goals were mainly achieved ([CCSSE 2022 Executive Summary of Results, "2022 CCSSE Results Show Progress on Key Benchmarks for Student Engagement" Research Brief](#)). Shortly before spring break and the COVID-19 pandemic closure in spring 2020, the Office of Institutional Research conducted a pair of focus groups to gather input from students on topics such as the transition from high school, placement processes, understanding of available resources and textbooks ([Focus Group Report Spring 2020](#)). As the COVID-19 pandemic required the College to shut down in-person classes, the College conducted surveys to gauge the impact on students and employees ([Remote Learning Survey Report Spring 2020](#)). The results of these surveys led to the implementation of programs to reduce the impact, such as purchasing Wi-Fi hotspots and other technology to assist students. As students returned from the pandemic, the College conducted a second student survey to assess where students stood on COVID-19 effects and their educational progress ([Return to Campus Student Survey Report Fall 2021](#)).

2.9

The institution conducts systematic review and assessment to both ensure the quality of its academic, learning support, and student services programs and implement improvements and innovations in support of equitable student achievement.

The Institution follows established processes that include data analysis related to student learning (such as outcomes assessment results) and achievement (for example, course completions and degree/certificate completions) disaggregated for student subpopulations and learning modalities as appropriate.

Review and assessment are ingrained into every process at Porterville College. The College ensures that every program, course, committee, and department adhere to regular checks and balances to guarantee that all parts of the campus are moving toward the ultimate vision of student success.

Surveys are one of the tools the College uses to assess different facets of the student experience, including academic rigor and engagement, belonging to the college community, and utilization of support services. The Community College Survey of Student Engagement (CCSSE) is conducted

every three years, and based on the data collected, the College creates goals in the Strategic Plan to improve the weakest areas. Those goals were primarily achieved ([CCSSE 2022 Executive Summary of Results](#), [“2022 CCSSE Results Show Progress on Key Benchmarks for Student Engagement” Research Brief](#)).

Every program at Porterville College participates in a program review process on a three-year cycle. This process helps ensure that programs function effectively and meet students’ academic needs ([Program Review Handbook](#), [Program Review Page](#), [Program Review Schedule](#)). Academic programs are systematically reviewed to ensure quality and implement improvements and innovations. This process is outlined in the Curriculum Handbook and takes place in the Curriculum Committee ([Curriculum Handbook](#)).

Through the program review process, instructional and non-instructional programs are reviewed on a three-year cycle ([Program Review Schedule](#)). Each program submits its review to the Strategic Planning Committee for feedback. Then, the program review goes to the College Council for approval.

Faculty and other educators engage in dialogue about learning and achievement data, disaggregated for student subpopulations and learning modalities as appropriate, to guide program improvement and curriculum development, address achievement gaps, and inform institutional goal-setting.

To further investigate gaps in student success, math and English faculty began holding an event called Data Extravaganza every semester ([English Data Extravaganza Agenda](#)). Faculty collaborate to seek out relevant information available through the Porterville College and Kern Community College District Office of Institutional Research & Reporting dashboards, share that data with the group, and brainstorm plans to improve within the discipline.

Five types of outcomes are assessed at Porterville College: Course-Level Student Learning Outcomes (SLOs), Program Learning Outcomes (PLOs), General Education Learning Outcomes (GELOs), Institutional Level Outcomes (ILOs), and Service Area Outcomes (SAOs) ([Porterville College Outcomes Handbook](#)). All outcomes are assessed using the same four-step cycle: collect, analyze, identify, and implement. Each outcome is assessed every four years at a minimum (some outcomes are assessed more often due to other standards and requirements) and more frequent assessment is encouraged.

SLOs are assessed by faculty in the classroom. Disciplines choose the assessment method(s) most appropriate to their subject matter and circumstances. For example, math instructors collaborated to include specific problems on at least one test in all Math P122: Statistics sections. When the results are gathered, faculty have a clear data set to discuss. Other assessments are more subjective. English instructors can assess their SLOs for English P101A: Expository Composition however they like, and the assessment method becomes a part of the conversation as they analyze their findings. Once an action plan is created, the collected assessment data, notes on the discussion about that data, and the proposition for improvement with specific designations as to what job belongs to what person and dates for completion are entered into the Google form “Outcomes Assessment Cycle Rotation Completion” ([Outcomes Assessment Cycle Rotation Completion](#)). A precise date is set to begin the next cycle.

Assessment analysis informs changes to improve instruction. After completing an assessment cycle rotation, business administration faculty identified that instruction needed to more intentionally define ethics to help students better achieve the outcome relating to students being able to explain the role of social responsibility in an organization ([BSAD P101 Outcomes Cycle Rotation Completion Form](#)). Assessment of SLO #1 of ADMJ P121: Juvenile Delinquency led faculty to identify an opportunity to change their primary outcome assessment method. Faculty decided the complexity of the assignment was likely interfering with their ability to determine if students were learning the outcome accurately ([ADMJ P121 Outcomes Cycle Rotation Completion Form](#)).

PLOs are assessed through one of three methods. Some disciplines, such as business, map the SLOs of the program's courses to the PLOs ([Business Map of SLOs to PLOs in Outcomes Presentation](#)). Then, the "Collect" stage is a matter of rounding up the latest cycle of each SLO and analyzing them together to evaluate how well students are meeting the PLO. Spanish instructors used this first method to recognize that students needed more direct instruction time with grammatical tenses in the first two sequential courses ([Spanish AA-T Outcomes Cycle Rotation Completion Form](#)). Other disciplines use assignments and student samples of those assignments from the program's courses to assess the PLO. For example, English faculty assessed PLO #1 by gathering relevant assignments from English 101B: Argumentative Writing & Critical Thinking through Literature and all relevant literature courses. The group looked at the assignment itself, primarily a research essay, and three student papers for each assignment (one clearly demonstrating the outcome, one right at the cusp of demonstrating the outcome, and one not quite demonstrating the outcome). Then, they could evaluate whether students were demonstrating the PLO overall and recommend how they could better teach and assess the PLO in the future. Ultimately, they decided to revise the PLO statement to reflect better the skills they deemed crucial to a student completing the associate in art for transfer degree in English ([English AA-T Outcomes Cycle Rotation Completion Form](#)). Finally, the third method of PLO assessment is using the SLOs of a capstone course. Few programs at Porterville College have a capstone course, or a class taken last in a program's sequence, which requires at its completion that a student demonstrate skills or knowledge gained from their learning throughout the program. Health Careers has programs that can assess their PLOs with this strategy ([EMT Outcomes Cycle Rotation Completion Form](#)).

Because general education is a large program, its outcomes are assessed in the same way the PLOs are assessed. GELOs are addressed by the Curriculum Committee at every meeting. The Outcomes Coordinator facilitates this process, and the group begins by looking at the GELO statement and deciding if it should be revised. Then, the representatives decide on the collection method (gathering completed SLO assessment cycles for SLOs mapped to that GELO or compiling relevant assignments and student samples from courses in the general education pattern). Finally, they discuss the material and identify areas of improvement. Upon completion, the cycle rotation is recorded, and a date is set for the next assessment cycle rotation to begin ([GELO Presentations for Curriculum Committee Meeting \(September 27, 2022\)](#), [GELO Presentations for Curriculum Committee Meeting \(January 23, 2024\)](#)).

Similarly, the College Council implements the ILO assessment process at every meeting ([ILO Presentations for College Council Meeting \(April 17, 2022\)](#), [ILO Presentations for College Council Meeting \(October 2, 2023\)](#)). With the Outcomes Coordinator facilitating, the committee

reviews the ILO statement and decides if it should be revised. Then, participants gather as much evidence as possible to see where Porterville College is giving students the opportunity to develop and demonstrate the ILO. This evidence comes from all parts of campus and primarily from the events and services outside of the classroom because much of the learning in the classroom is assessed with the SLOs, PLOs, and GELOs. When the information has been compiled, the College Council discusses what the College is doing, how they can improve those endeavors, and ideas for new programs, events, or opportunities for students to develop and demonstrate the ILO. An action plan is created, and the Outcomes Coordinator asks responsible parties to report on their progress frequently ([ILO #5 Implementation Plan](#)). A Flex Day presentation on critical thinking across disciplines resulted from an ILO assessment. ILO #2 focuses on cognition and states that students should “[t]hink independently, creatively and critically to analyze, synthesize, and evaluate ideas and information.” The presentation introduced how to integrate assignments/activities across the curriculum by sharing best practices in the classroom ([Implementation Plan for ILO #2](#)).

In spring 2021, voter awareness was expanded for the campus community due to the findings of an ILO assessment. All incoming first-year students through the PC Promise Program can register to vote and are given presentations on many other social issues. Additionally, the College is working to create and identify student clubs related to social and cultural responsibility and provides training to students through the Associated Students of Porterville College (ASPC) ([ILO #4 Implementation Plan](#)).

Service Area Outcomes (SAOs) are reported for programs in Student Services and non-instructional departments. These statements reflect what a student should be equipped to demonstrate or an attitude the student will have after receiving the services of a particular program. For example, the Early Alert program decided to change the questionnaire distributed to students because of the SAO assessment ([Early Alert SAO #1 Outcome Cycle Rotation Completion Form](#)).

The Institution’s dialogue about disaggregated learning and achievement data informs institutional goal-setting.

As noted above, learning and achievement data analysis is pervasive and comprehensive and informs participatory governance committees, planning committees, planning documents, and resource allocation. Program review is integral to the College’s planning and resource processes and informs the Strategic Planning Committee and strategic planning as a function. This data is also featured prominently in Educational Master Planning, informing district-level planning projects.

Standard 3: Infrastructure and Resources

3.1

The institution employs qualified faculty, staff, administrators, and other personnel to support and sustain educational services and improve student success. The institution maintains appropriate policies and regularly assesses its employment practices to promote and improve equity, diversity, and mission fulfillment.

The Institution has a process to determine the staffing levels and organizational structure it needs to support its mission, educational programs, and operations. The College and District use multiple methods to determine staffing levels to support the mission. At the highest level, the Educational Master Plan ([Educational Master Plan](#)), Facilities Master Plan ([Facilities Master Plan](#)), and Strategic Plan ([Strategic Plan](#)) inform overarching goal-setting and short- and long-term determinations regarding growth and operational focus. Program review is completed for each academic division and each operational area. Data is used to suggest and justify relevant staffing requests ([Program Review Forms Instructional](#), [Program Review Forms Non-Instructional](#)). District office areas complete administrative unit reviews to inform staffing priorities ([AUR Business Services](#), [AUR Construction and Facilities Planning](#), [AUR Educational Services](#), [AUR Workforce and Economic Development](#), [AUR Human Resources](#), [AUR Information Technology](#), [AUR Institutional Research and Reporting](#)).

The Faculty Obligation Number (FON) ([Full-Time Faculty Obligation Number \(FON\)](#)) is mathematically assigned according to Title 5 regulation and factors largely into consideration for hiring full-time faculty. Through the Chancellor's Cabinet and Consultation Council, the District evaluates the FON and the budget to determine the need for full-time faculty growth positions. Determining which specific disciplines are addressed in faculty hiring is primarily a participatory governance process in which the Academic Senate ranks and submits faculty requests to the College President. Grants or other categorical funds occasionally impact or determine full-time, temporary faculty recruitments. Non-instructional staff requests are made to the President's Cabinet through the area vice presidents, after which program review, budgetary, and other data are utilized to determine hiring priorities. The Institution has processes in place at both the District Office and at the colleges to ensure its staffing levels are adequate and support the success of all areas ([Full-Time Faculty Obligation Number \(FON\)](#), [PC Academic Senate Faculty Position Requests Ranking 2023-24](#), [Proposal—LRC Tech Increase in Hours, 2023-24 HR Staffing Plan for College Council](#)). Administrative unit reviews are completed by District office areas, and program reviews are completed by the colleges to plan accordingly ([AUR Business Services](#), [AUR Construction and Facilities Planning](#), [AUR Educational Services](#), [AUR Workforce and Economic Development](#), [AUR Human Resources](#), [AUR Information Technology](#), [AUR Institutional Research and Reporting](#)).

The Institution plans for the recruitment of personnel in accordance with its institutional mission and goals. As noted above, prioritization for instructional and non-instructional positions comes primarily through the program review process, which requires departments and divisions to correlate resource requests with the strategic planning process and the mission and goals of the College and District ([Program Review Page](#)).

Through consultation with the appropriate constituency groups, KCCD develops and implements personnel policies and procedures that ensure consistency in recruiting personnel ([KCCD Fall 2022 FON Compliance Form](#), [53021 Title V California Code of Regulations](#)).

The Institution uses appropriate hiring criteria (including minimum qualifications criteria for the system in which it operates and/or degree level, if applicable) to ensure all employees are qualified for their roles. The KCCD Human Resources Department adheres to criteria as set forth by the Board of Trustees. The minimum qualifications required for each job meet the requirements outlined in Title 5 California Code of Regulations and California Education Code ([Board Policy 7120 Recruitment and Hiring](#), [Administrative Procedure 7120 Recruitment and Hiring](#), [Minimum Qualifications for Faculty and Administrators in California Community Colleges](#), [Administrative Procedure 8700 Equivalency Criteria](#), [KCCD Careers Page](#), [KCCD Faculty Minimum Qualifications](#), [Title V Section 53420 - Minimum Qualifications for Educational Administrators](#), [Title V Section 53430 Equivalencies](#)). Board Policy (BP) 7120 and Administrative Procedure (AP) 7120 define districtwide policy and procedure for hiring and recruitment. The District and the College adhere to the Minimum Qualifications Handbook from the California Community College Chancellor's Office for faculty and administrative positions. The College and District use licensure requirements, education, and experience for employment postings for all positions to ensure all employees are qualified for their roles. Some positions, such as health careers faculty, wellness counselor, accounting, and maintenance and operations staff, have very specific additional qualifications laid out by programmatic accreditation or other codes or principles to which the District and College adhere where relevant. Board policy and administrative procedure documents address districtwide requirements for all employee groups ([Minimum Qualifications Handbook for CA Community Colleges](#), [Administrative Procedure 7120 Recruitment and Hiring](#), [Administrative Procedure 7210 Academic Employees](#), [Administrative Procedure 7211 Faculty Service Area](#), [Administrative Procedure 7230 Classified Employees](#), [Administrative Procedure 7250 Educational Administrators](#), [Administrative Procedure 7260 Supervisors and Managers](#), [Administrative Procedure 8700 Equivalency Criteria](#), [Administrative Procedure 8800 Adjunct Employee Procedures](#), [Administrative Procedure 8900 Temporary Full-time Faculty Employment](#), [Board Policy 7120 Recruitment and Hiring](#), [Board Policy 7210 Academic Employees](#), [Board Policy 7230 Classified Employees](#), [Board Policy 7250 Educational Administrators](#), [Board Policy 7260 Classified Supervisors and Managers](#), [Board Policy 8700 Faculty Hiring](#), [Board Policy 8800 Adjunct Employment](#), [Board Policy 8900 Temporary Full-time Faculty Employment](#)).

Faculty job descriptions are appropriate for the level of instruction offered and include the responsibility for teaching and learning, curriculum oversight, and the assessment of student learning outcomes. KCCD Human Resources reviews all faculty postings to ensure they are appropriate and comprehensive by undergoing a review each year before the positions are posted ([Board Policy 8700 Faculty Hiring](#), [Administrative Policy 8900 Temporary Full-time Faculty Employment](#), [Board Policy 8800 Adjunct Employment](#), [KCCD CCA Contract 2023-2026](#)).

The Institution verifies the education (including equivalency of degrees for non-U.S. institutions), training, and experience of all new hires to ensure they possess the minimum qualifications outlined in job descriptions. KCCD requires that all new hires undergo a comprehensive review by management to ensure that new hires have the qualifications to be employed by the District. Only unopened official transcripts are accepted to verify the education of a new hire. New hires

are required to provide references who can confirm experience and training ([Administrative Procedure 7211 Faculty Equivalency](#), [Administrative Procedure 8700 Equivalency Criteria](#), [KCCD Careers Page](#), [KCCD Faculty Minimum Qualifications](#), [KCCD Employee Onboarding Check Sheet](#)).

The Institution tracks and evaluates its record in employment equity and diversity. KCCD has a comprehensive electronic application system, NEOED, that produces annual reports evaluated by KCCD Human Resources ([Equal Employment Opportunity Plan](#)).

The Institution regularly reviews its policies and procedures for equitable hiring practices to ensure currency and relevance. KCCD consistently reviews its policies and procedures for equitable hiring practices by ensuring the District's Equal Employment Opportunity (EEO) Plan is kept current ([Equal Employment Opportunity Plan](#), [KCCD Screening Committee Training](#), [KCCD Screening Committee Workshop Evaluation Form](#)).

Through consultation with the appropriate constituency groups, KCCD develops and implements personnel policies and procedures that ensure consistency in recruiting personnel ([KCCD Fall 2022 FON Compliance Form](#), [53021 Title V California Code of Regulations](#)).

3.2

The institution supports employees with professional learning opportunities aligned with the mission and institutional goals. These opportunities are regularly evaluated for overall effectiveness in promoting equitable student success and in meeting institutional and employee needs.

The Institution has methods to identify employees' professional learning needs relevant to educational services and operational functions, including professional learning opportunities to support institutional efforts to close student achievement gaps. The professional learning opportunities at Porterville College are designed to support the Institution's mission and goals. The College has recently sought to increase professional development opportunities for all employee categories. In addition, faculty, in coordination with College administration and the Academic Senate, have led several new initiatives for faculty professional development. The former Staff Development Committee, which has been dormant since 2019, has been the focus of discussion in a task force to revise the charge and membership. The College Council approved the charter in fall 2023 ([College Council Meeting Minutes \(October 2, 2023\)](#)). An important aspect of this work includes surveys of all constituent groups to determine professional development gaps and those areas for expressed growth ([2022 KCCD Climate Survey Presentation \(February 2024\)](#)).

The College has also added a new Assistant Director of Academic Technology and Professional Development position to support campuswide efforts. Among the objectives of this position is to improve access to and support for professional development opportunities and ensure that the opportunities provided align with the needs of each employee category.

Flex Day activities target the College community through events that include faculty, administration, and classified staff ([PC Flex Days Fall 2023 Agenda](#)). The day's planning is led by the Academic Senate President and the Vice President of Instruction, with input from the

President's Office and employee constituent groups. Participants are surveyed after the Flex Day, and the results are used to develop subsequent activities ([Spring 2021 Flex Survey](#)).

To better understand the curriculum process, the Curriculum Committee Chair and the Curriculum Specialist hold training and work sessions to help faculty learn how to navigate eLumen for updating courses or programs ([eLumen Workshops](#)). Faculty has also received training on developing and writing non-credit courses in eLumen through the Zero-Unit/Non-Credit Training ([Non-Credit/Zero-Unit Flyer](#), [Non-Credit/Zero-Unit Handout and eLumen Directions](#), [Non-Credit Presentation](#), [Non-Credit/Zero-Unit Courses Agenda](#)). Staff and faculty also attended the state Academic Senate Non-Credit Institute ([2023 Curriculum Institute](#)).

To demystify the outcomes assessment process, the Outcomes Coordinator facilitates an Outcomes Fest, a session to bring assessment data and discuss the findings with colleagues. Many of the early iterations of Outcomes Fest focused on revising Student Learning Outcomes (SLOs) and Program Learning Outcomes (PLOs) and designing a plan for assessment ([LAD Outcomes Fest Agenda \(October 2022\)](#)). More recent Outcomes Fests have been opportunities for robust analysis and plans to implement improved classroom activities, engaging lessons, and equitable assessments ([Natural Science Outcomes Fest \(February 2023\)](#)).

To study Porterville College students and trends in success and learning, math and English began holding Data Extravaganza, a semesterly event allowing faculty in those disciplines to explore the data and discuss equity gaps, changes in success, or other movements they see in the numbers ([Data Extravaganza Agenda \(November 18, 2022\)](#), [Data Extravaganza II Agenda \(April 28, 2023\)](#), [Data Extravaganza III Agenda \(December 1, 2023\)](#)). The participants then create the next semester's agenda and work to improve student success and quality of learning in their discipline.

Porterville College's professional learning opportunities include attending conferences. For example, four adjunct instructors attended the California Association for Psychiatric Technician Educators Training Conference, an annual conference for instructors in the psychiatric technician program offering training on current industry standards ([California Association for Psychiatric Technician Educators Training Conference](#)). Nursing instructors attend California Organization Associate Degree Nursing Educators training ([California Organization of Associate Degree of Nursing Education Conference Agenda Spring 2023](#)).

As noted in Standard 2, the College ensures quality online learning through mandatory training for teaching distance education courses ([Kung Fu Canvas Syllabus](#), [Introduction to Online Teaching and Learning Modules](#), [Introduction to Online Teaching and Learning Syllabus](#), [Peer Online Course Review \(POCR\)](#)).

Porterville College began a homegrown, faculty-driven project called Quick Tips for Online Success ([Quick Tips for Online Success](#)). Seven faculty members from five disciplines joined forces to offer colleagues tricks and hacks to help with online instruction. The presenters covered many topics, such as promoting student-to-student interaction, creating fun, and ensuring academic accountability. In each session, they focused on a single theme and delivered as many

tips as possible in twenty minutes. The last ten minutes were reserved for unrecorded time for faculty to bond via Zoom when many felt disconnected from the College and their colleagues.

In April 2023, Kern Community College District hosted the inaugural Teaching-and-Learning Exchange Festival (TALEFEST), an event created by faculty ([TALEfest](#)). The festival was created to promote sharing and discussion of peer-learning opportunities.

The College offers the Student-Centered Teaching Workshop, a four-day intensive deep dive on addressing the affective domain continuously throughout the semester ([Student-Centered Teaching Workshop Agenda](#), [Student-Centered Teaching Workshop Day 1 Agenda](#), [Student-Centered Teaching Workshop Day 2 Agenda](#), [Student-Centered Teaching Workshop Day 3 Agenda](#), [Student-Centered Teaching Workshop Day 4 Agenda](#)). The workshop is required for English instructors who will be teaching English P101A with English P01AX, a corequisite course designed to support students with college-level composition.

In spring 2022, a faculty learning community was developed with a focus on innovative technology for instruction to enhance student engagement and teaching effectiveness. The group has primarily focused on virtual reality thus far ([Virtual Reality Training Lesson Guide Catalog](#), [Virtual Reality Learning Community Follow-Up Survey](#)).

To align the hiring process more closely with the College mission ([Mission and Values](#)), frequent, required workshops have been held to instruct search committee participants on diversity, equity, inclusion, and accessibility (DEIA) considerations and updates ([Screening Committee Training Summary-Guide](#), [Screening Committee Workshop Evaluation](#)).

The Porterville College Safe Zone program was created as a way for the campus to create a supportive environment for the LGBTQIA+ community ([Safe Zone Program](#)). Many faculty have attended Safe Zone workshops and publicly identify themselves as making an effort to understand and support the needs of the LGBTQIA+ community ([KCCD Leadership Academy](#), [KCCD Employee Engagements Agenda](#), [FRISK Training for Management](#), [KCCD Screening Committee Training](#), [Board Policy 7160 Professional Development](#), [Administrative Procedure 7160 Professional Development](#)).

The Institution evaluates its training and professional learning offerings and uses the results to improve effectiveness in supporting employee needs. KCCD provides opportunities for evaluation of training and uses this information to plan professional development to support the needs of the employees. Training and workshops routinely include summative evaluations to identify areas for improvement ([KCCD Leadership Academy](#), [KCCD Employee Engagements Agenda](#), [FRISK Training for Management](#), [Screening Committee Training Summary-Guide](#), [Screening Committee Workshop Evaluation](#), [Board Policy 7150 Evaluation](#), [Administrative Procedure 7150 Evaluation](#), [2021-2024 CSEA Agreement](#), [CTE Instructor Training Evaluation Form](#), [Screening Committee Workshop Evaluation](#), [Survey IOTL Course Evaluation](#), [VR Learning Community Follow-Up Survey](#)).

3.3

Employees are evaluated regularly, using clear criteria that align with their professional responsibilities and support the institution’s mission and goals.

The Institution regularly and systematically evaluates all its employees based on their professional responsibilities and uses this information to foster their development and success. This process is continuous and ongoing in support of the mission. KCCD has policies and procedures in place to effectively evaluate faculty, staff, and administrators to ensure the District's mission and goals are successfully met. All employees periodically undergo a performance evaluation at prescribed intervals ([BP 7150 Evaluation](#)). Article 6 of the CCA contract defines evaluations for full-time faculty. Article 7 of the CCA contract defines evaluations for part-time faculty with recurring evaluations every three years ([KCCD CCA Contract 2020-2023](#)). Article 13.3 of the California School Employees Association (CSEA) contract defines annual evaluations for classified faculty based on the duties outlined in the employee’s job description ([California School Employees Association Agreement](#)). AP 7150 of the KCCD Board policy defines the evaluation of confidential and management employees. Evaluation of confidential and management employees has the primary purpose of recognizing successes and commitment to improving job performance as it relates to the District’s mission. A written evaluation report is completed annually during the first two years of employment and every two years thereafter for each confidential and management employee ([AP 7150 Evaluation](#)).

The Institution has methods to determine the kinds of support its personnel need to be successful in their roles. The comprehensive evaluation process for all constituent groups includes, as part of the structure, an analysis to identify areas for improvement and resources or activities to make those improvements ([Classified--Performance Evaluation Report](#), [Faculty Evaluation Checklist](#), [Faculty--Form G Adjunct Faculty Materials Review and Open Lab Activity Observation](#), [Faculty--Form O Adjunct Faculty](#), [Faculty Director Evaluation](#), [Faculty--Form O Full-Time Faculty](#), [Faculty Director Evaluation](#), [Faculty--Form S1 Full-Time Faculty Mode C Remediation Plan](#), [Management Team Evaluation Survey](#)).

3.4

The institution develops, maintains, and enhances its educational services and operational functions through the effective use of fiscal resources. Financial resources support and sustain the mission and promote equitable achievement of student success.

The Institution has resources to support essential program needs and educational improvement and innovation when warranted.

Porterville College has resources to support essential program needs and operational functions. The Budget Committee established a combined zero-based and performance-based budgeting approach. The Budget Committee is a subcommittee of the College Council. The Budget Committee is responsible for coordinating budget planning effectively to assist the Institution in utilizing fiscal resources in the pursuit of the College mission ([Budget Committee Charge and Composition](#), [Budget Premise](#)). The committee establishes an annual budget planning calendar ([Budget Planning Calendar](#)) that aligns with the District planning calendar to ensure that the Institution complies with the Board of Trustees approved annual calendar. The committee utilizes

instructional and non-instructional program reviews and budget requests in the budget planning process. Budget requests must also align with Program Learning Outcomes (PLOs) or Service Area Outcomes (SAOs), department goals identified in the program review, integrated planning linking requests to the *CCCCO Vision 2030* ([CCCCO Vision For Success 2030](#)), and PC Strategic Planning goals. Budget requests must also identify any sustainability issues that need to be addressed. The Budget Committee utilizes a rubric to assess pending budget requests ([Budget Rubric Instructional](#), [Budget Rubric Non-Instructional](#)). Budget requests are reviewed and prioritized by the Budget Committee, and the final recommendation is presented to the executive team and the College Council.

Funds are allocated to help achieve the Institution's stated goals for student learning.

The allocation model components include consideration of the Student-Centered Funding Formula (SCFF), stabilization, growth, reserves, and districtwide expenses. The SCFF supports student access through enrollment-based funding and student equity by allocating funds with an equity lens to support successful student outcomes ([KCCD Internal Allocation Model Budget \(page 9\)](#)).

The allocation model has guiding principles:

- Recognize the District as the fiscal entity while honoring each institution's unique legacy and culture to meet its mission.
- Use planning and goals to drive the budget process.
- Ensure that unrestricted resource allocation decisions align with the type of funding.
- Consider both the inputs and outcomes of proposed budget decisions.
- Regularly assess operations and use data to inform the decision-making and planning processes.
- Incentivize innovation and program development.
- Take a long-term perspective.
- Be transparent, simple, and easy to explain.

The District allocates apportionment revenue to the colleges based on their SCFF components ([Program Review](#), [Annual Program Review Update](#), [Budget Rubric Instructional](#), [Budget Rubric Non-Instructional](#)).

The Institution's resource allocation process provides a means for setting priorities for funding.

The College's resource allocation process provides a means for setting priorities for funding through the program review process, the annual program review update, the budget worksheet, and the budget rubrics.

The Institution manages its resources to sustain educational services and improve institutional effectiveness at all locations where over 50 percent of a program is offered.

Porterville College has only a single location whereupon over 50 percent of a program is offered. As noted above, the College's budgetary procedures are comprehensive.

3.5

The institution's mission and goals are the foundation for financial planning. Financial information is disseminated to support effective planning and decision-making and provide opportunities for stakeholders to participate in the development of plans and budgets.

The Institution considers its mission and goals part of the annual fiscal planning process.

The annual fiscal planning process heavily considers data in program review requests, which in turn maps requests to the Strategic Plan and, therefore, the College's mission and goals ([Annual Program Review Update](#), [Program Review](#), [Porterville College Strategic Plan](#)).

The Institution's processes ensure appropriate stakeholder participation in financial planning, prioritization, and budget development.

The prioritization and budget development process is guided by the College's Budget Committee, which includes broad representation of all constituency groups. Additionally, budgetary decisions include input from the program review process, which is developed by relevant faculty and management, and all members of the Budget Committee participate in the rubric evaluation of budget requests ([Program Review](#), [Budget Committee Charge and Composition](#)).

At Porterville College, individuals involved in institutional planning receive accurate information about available funds, including the annual budget showing ongoing and anticipated fiscal commitments. The Budget Committee begins the annual review process with a document that illustrates the anticipated allocation from the District. Additionally, the Budget Committee presents the total expected expenditures for salaries and benefits, the total resource requests from unit and section plans, and an estimated figure for chargebacks to the District provided by the KCCD CFO ([District Office AUR Budget Process](#)).

Sound financial planning, including a realistic expectation of financial resource availability, is a foundational element of the College's plans and goals. At the district level, a realistic expectation of financial resource availability is ensured by the KCCD CFO in the Student-Centered Funding Formula (SCFF) revenue calculation that serves as the basis for the College's general revenue allocation. The KCCD CFO performs an SCFF calculation for the District and an SCFF calculation for each college, which are used along with stabilization, lottery revenue, interest income, and miscellaneous income to determine the allocation for each college ([District Office AUR Budget Process](#), [2022-2023 District Office Tentative Budget](#)). This document reflects two strategies that have been used for years to ensure sound financial planning at the direction of the KCCD Board of Trustees: applying only a fraction of the annual cost of living adjustment (COLA) to the SCFF multipliers and imposing a deficit factor based on multiple analyses of the state proposed budget. At the college level, every May, the financial status of the District and College is presented to the College Council for all stakeholder groups to hear ([College Council Meeting Minutes \(May 6, 2024\)](#)). A report from the Budget Development Committee (BDC) is a standing item at the College Council meetings; updates to the District and College budget situation are routine in that report ([College Council Meeting Agenda \(May 6, 2024\)](#)). More

informally, the College President or District Chancellor provides a status of the District and College finances at the annual all-employee convocation.

3.6

The institution assures the integrity and responsible use of its financial resources and regularly evaluates its fiscal outcomes and financial management practices to promote institutional mission fulfillment.

Porterville College has effective internal and external control mechanisms to ensure dependable, accurate, and timely financial information is available for sound financial decision-making. KCCD Board policy and procedure documents authorize the Chancellor to supervise general business procedures to ensure proper administration of property, contracts, budget, audit and accounting of funds, and other similar resources ([Board Policy 6100 Delegation of Authority, Business & Fiscal Affairs](#), [Administrative Procedure 6100 Delegation of Authority, Business & Fiscal Affairs](#), [Board Policy 6200 Budget Preparation](#), [Administrative Policy 6200 Budget Preparation](#), [Board Policy 6250 Budget Management](#), [Administrative Procedure Budget Management](#)). All transactions must comply with applicable laws and regulations and the California Community Colleges Budget and Accounting Manual. Because Porterville College is part of a multi-college district, financial management practices are evaluated in concert with the other KCCD colleges and the business team at the District office. Evaluation is both formal and informal. Formally, the District business office completes an annual unit review that includes a yearly assessment of outcomes, plans for changes or improvements needed, a list of current goals, and resources required. For example, in the 2024-2025 review, it was noted that grants and categorical reporting were not being completed in a timely manner, resulting in goals to create and implement a grants program for the colleges and develop a grant procedure manual for program managers ([KCCD DO AUR Business Services 2024-2025](#)). Informally, the three college vice presidents of finance and administrative services meet regularly with the Chief Financial Officer (CFO) to discuss and improve processes, both those internally imposed as well as those imposed by external organizations. In addition, the accounting managers across the District, as well as the budget analysts, meet regularly to discuss processes, workflows, and improvements.

Audits demonstrate the integrity of financial management practices, and audit findings and/or negative reviews are addressed in a timely manner. Financial records are audited as part of the comprehensive annual external audit. As of spring 2024, the most recent audit report document was completed in June 2023 ([2022-23 Annual Audit Report](#)). To the extent that audit recommendations strengthen internal controls and/or improve financial procedures, the College or District implements them if they are feasible, reasonable, and cost-effective. Responses to audit findings are provided to the auditors prior to the publication of the annual audit. The College's responses are included in the publicized financial statements. Recent audits have resulted in no findings. Annual audit results are shared with the Board of Trustees and posted on the District website ([KCCD Business Office Reports](#)).

Information about budget, fiscal conditions, and audit results are communicated to stakeholders as appropriate to the Institution's mission and structure. At the highest level, budget information is first shared by the CFO with the KCCD Finance and Audit Committee. Then, that information

is shared with the College vice presidents of finance and administrative services. At Porterville College, this information is then shared with the Budget Committee and the College Council. Following a presentation to and adoption by the Board of Trustees in June, the tentative budget is then communicated to faculty chairs and budget managers through the College Council and the President's Advisory Committee ([College Council Meeting Agenda \(October 2, 2023\)](#), [College Council Meeting Minutes \(October 2, 2023\)](#)). Budgets are loaded into the Banner system in July, at which point faculty chairs and budget managers have access to view and spend.

3.7

The institution assures financial solvency. When making short-range financial plans, the institution considers its long-range financial priorities and future obligations to ensure sustained fiscal stability.

The Institution reviews its past financial results to plan for current and future fiscal needs. The development of budget documents is KCCD's primary means of financial planning. The budget development process includes detailed revenue and expenditure projections by departments and programs. The budget document contains individual summary budgets for the general-unrestricted and general-restricted funds and includes detailed sub-fund projections for the debt-service funds (which include budget debt service projections for all bond issuances), special funds, enterprise funds, capital-outlay funds, and trust funds ([2024-25 Tentative Budget Banner Example](#)). Each year, an Annual Unrestricted Fund Carryover/Actual Ending-Fund Balance report is generated to calculate the actual District and College ending-unrestricted-fund balance based on the results from the annual audit. Due to years of conservative fiscal planning, the District has built a sizable ending-fund balance that directly influences ongoing District reserves. This build-up intentionally offsets the ongoing instability with state revenues and ensures continued District solvency and operational continuity ([KCCD 2024-25 Tentative Budget](#)). In addition, the KCCD Board's Finance and Audit Committee regularly meets to review all major District financial reports, including the annual District audit, annual and quarterly Certified College Funding Statement (CCFS) 311 financial status reports, annual budgets, and annual Other Post Employment Retirement (OPEB) audit ([KCCD Finance & Audit Committee Meeting Minutes \(May 30, 2024\)](#)). The oversight committees for the Measure J and Measure G bonds annually provide an annual report to the Board of Trustees regarding the District's compliance with the requirements of Article XIII A, Section 1(b)(3) of the California Constitution ([KCCD Bond Oversight Presentation](#)).

The Institution continually monitors, evaluates, and adjusts its institutional budgets and cash management strategies to ensure both short-term and long-term financial solvency. The District uses the Banner finance module for its budget monitoring, maintenance, and accounting activity. Balance sheets are also maintained at the sub-fund level, with summary capabilities for reviewing, evaluating, and monitoring fund balances. It should be noted that the student fees and financial aid activity are incorporated into the BANNER student module and fed daily to the finance module. The District utilizes the COGNOS reporting tool for its various financial reports, which the District's IT department supports. Each month, sub-fund operating reports are emailed to each manager responsible for an assigned budget. Executive summary reports are also available to oversee key fund budgets throughout the year. These tools are integral in monitoring the expenditures and cash flows of various departments and programs ([2024-25 Tentative Budget](#)

[Banner Example](#)). The District's financial managers meet regularly to ensure consistent communications and application of business, finance, and accounting policies and procedures across District operations. Proposed budgets for the year, including key assumptions used in their development, are presented to the Board of Trustees. Additionally, several key internal budget goals and compliance tests are included, such as projected unrestricted-ending-fund balance, general unrestricted-fund salaries and benefits as a percentage of unrestricted expenditures, compliance-test projection of the 50 percent law, and compliance-test projection for the full-time faculty obligation number.

The Institution has reasonable plans for payments of long-term liabilities and obligations (health benefits, insurance costs, building maintenance costs, other post-employment benefit obligations, other college-incurred debts, etc.). It considers these plans in annual budget development and other short-term fiscal planning. The Board Finance and Audit Committee reviews all proposed projects with major fiscal implications including property acquisition, long-term debt issuances, and refundings (i.e., general obligation bonds, Certificates of Participation (COPs), and Other Post Employment Retirement (OPEB) bonds), District investment portfolio performance, annual OPEB actuarial reports, annual unrestricted fund balance report, student enrollment activity, Measure G & J bond program activity, and investments in major College or District initiatives ([KCCD Finance & Audit Committee Meeting Minutes \(May 30, 2024\)](#)). KCCD's OPEB Board oversees the District's largest debt obligation of the general unrestricted fund (\$71.9 million as of June 30, 2023). The OPEB Board monitors the OPEB liability via the annual actuarial report, which shows the performance of the investments of OPEB bond proceeds committed to paying the OPEB benefits and the balance and debt service requirements of the OPEB bonds. Currently, the District's OPEB liability is over 100 percent funded. The OPEB debt service schedule was designed to be essentially flat throughout the life of the bonds. This approach has assisted in smoothing out the required debt service cash flows for this liability over time versus the pay-as-you-go approach used prior to issuing the OPEB bonds. The OPEB Board consists of the three Board of Trustee members on the Finance and Audit Committee, the Chancellor, the Chief Financial Officer, the Vice Chancellor of Human Resources, and the Associate Vice Chancellor of Accounting Services ([OPEB Board Meeting Notes](#)). The second largest debt obligation of the general fund is the District's Certificates of Participation (\$20.7 million as of June 30, 2023). Starting with the 2021-22 budget, the District set aside funding adequate to pay off these COPs in 2026. The set-aside is fully funded for the future call and payoff of the District's COPs.

The Institution ensures that locally incurred debt repayment schedules do not have an adverse impact on meeting all current and future financial obligations. The Independent Auditor's Report Opinion ([2022-23 Annual Audit Report](#)), Management Discussion and Analysis, Financial Statements, and Audit Findings sections of the report are critical components of the annual audit. The Annual Audit ([2022-23 Annual Audit Report](#)) is integral in informing and assuring the Board of Trustees and the general public of the District's fiscal stability. The District has not had an audit finding in over ten years. In addition, the role of the districtwide Budget Committee is to review and make recommendations regarding districtwide processes related to budget development, the District's annual budget proposals, and the District's unrestricted fund allocation model. The committee's feedback and evaluation are integral to developing a fund allocation process and the development of the annual District budget that ensures all current and

future financial obligations are being met ([Districtwide Budget Committee Meeting Minutes \(March 15, 2024\)](#)).

3.8

The institution constructs and maintains physical resources to support and sustain educational services and operational functions. The institution assures safe and effective physical resources at all locations where it offers courses, student services, and/or learning supports.

The Institution aligns the planning and maintenance of facilities and other physical resources with the institutional mission, goals, and needs of programs and services. The Facilities Master Plan is guided by the College and the District mission and vision and is developed through a comprehensive and collaborative process ([PC Facilities Master Plan 2024-2029](#)). This plan identifies the need for development and new buildings that support and sustain educational services and operational functions. The construction of the new sports complex will begin in the coming months and will provide student-athletes with a safe facility to perform. The Institution actively seeks support for capital project funding through state bond dollars. The construction of the new Allied Health building and the stadium renovation by Porterville College were made possible through Measure G and J, along with state funds.

KCCCD construction and facilities planning personnel align planning, maintenance of facilities, and other facilities requirements via the administrative unit review, CCCC annual space inventory report, regular College meetings regarding existing and future project needs, and assistance in the College Facilities Master Plan development ([2022-24 Administrative Unit Review – DO Facilities](#), [FUSION Space Inventory Report](#), [PC Facilities Master Plan](#)).

The Institution has processes and procedures to ensure all facilities' safety, including procedures for reporting unsafe physical facilities. The Institution ensures safe and effective physical resources through scheduled maintenance of infrastructure equipment and buildings campuswide. The ongoing renovations and modernization of the Porterville College campus, such as classrooms, art gallery, gymnasium, and fire alarm detection, ensure safe and effective resources are provided to support and sustain education.

KCCCD and College facilities teams place student, staff, and public safety as their highest priority. Each College facility is supported by a computerized maintenance management system that allows for individual reporting of safety concerns through work orders. Regular inspections of the College are performed by site maintenance staff ([KCCCD Emergency Operation Plan](#)).

The Institution evaluates the effectiveness and sufficiency of its facilities and equipment regularly, taking utilization and other relevant data into account, and uses the results to improve. KCCCD facilities personnel meet annually with College administration to review facility utilization as part of the space inventory process and analyze options to improve space utilization ([FUSION Space Inventory Report](#)).

The Facilities Planning Advisory Sub-Committee consists of representatives from campus stakeholders who are intended to provide input on safety and physical needs and share facility-related updates and information with the campus community. The College is currently working on re-establishing this committee as it is vital to sustaining educational services.

3.9

The institution implements, enhances, and secures its technology resources to support and sustain educational services and operational functions. The institution clearly communicates requirements for the safe and appropriate use of technology to students and employees and employs effective protocols for network and data security.

KCCD IT aligns technology planning, implementation, and maintenance with the institutional mission via the administrative unit review and master planning processes ([District Office Administrative Unit Review](#), [KCCD District Technology Master Plan](#)). Porterville College Information Technology (IT), with the support of the Budget Committee and active participation of the IT Committee, the District IT Managers group, and the Director of IT, has ensured that technology is being used to enhance the operational effectiveness of the Institution. The IT Committee continues to look at new instructional needs and priorities. The Director of IT continues to seek input from faculty, staff, and students on IT needs while working with the District and other KCCD colleges to bring new technology to the campus.

The Information Technology Plan ([Porterville College Information Technology Plan](#)) and Information Technology Program Review ([Information Technology Program Review](#)) show how the department sustains and maintains IT educational services on campus. The local campus IT Committee has discussed and approved many IT projects. Projects such as wi-fi installations, hyflex classrooms installations, core network upgrades, computer replacements, and campus fiber installations have been completed in the past four years ([Information Technology Committee Meeting Minutes \(October 30, 2020\)](#), [Information Technology Committee Meeting Minutes \(April 9, 2021\)](#), [Information Technology Committee Meeting Minutes \(September 24, 2021\)](#), [Information Technology Committee Meeting Minutes \(November 19, 2021\)](#), [Information Technology Committee Meeting Agenda \(April 21, 2023\)](#), [Information Technology Committee Meeting Minutes \(September 1, 2023\)](#)).

Within the Computing and Network Use Agreement ([Computing and Network Use Agreement](#)), users are informed of the appropriate and acceptable use of computers, networking resources, and other College technology. Users must sign off on the agreement. The local campus IT department works closely with the District IT Security team and collaborates on the responsibility of effective protocols and data security. These security protocols are outlined in the District IT Administrative Unit Review ([District Office Administrative Unit Review](#), pages 9 and 14).

KCCD IT leadership ensures that technology infrastructure is appropriate to support educational services and operations by engaging regularly via several committees, including IT managers meetings, Banner steering committee, and the VP meetings to receive feedback ([Vice Presidents Council Meeting Minutes \(March 22, 2023\)](#), [District Office Information Technology Vice Presidents Meeting Status Update \(April 2023\)](#), [IT Manager Meeting Notes \(September 8, 2022\)](#), [Banner Steering Committee Minutes \(April 2023\)](#)).

The Institution clearly communicates guidelines/rules for the appropriate use of its technologies to all users via administrative procedures, including AP 3720 and AP 3750 ([Administrative Procedure 3720 Computing and Network Use](#), [Administrative Procedure 3750 Use of Copyrighted Material](#)).

KCCD takes several steps to ensure the security of our networks and data, including phishing campaigns, third-party vulnerability assessments, contractual language with vendors, and backup and disaster recovery plans ([Phishing Campaign Plan](#), [ResoluteGuard Vulnerability Assessment Letter](#), [Ellucian Banner ERP Hosting Contract: Information Security Addendum](#), [Ellucian Banner ERP Contract: Backup and Disaster Recovery Language](#), [KCCD Backup Documentation \(Sensitive Security Info Redacted\)](#)).

KCCD regularly monitors its network infrastructure with monitoring tools and proactively conducts vulnerability assessments and phishing campaigns to ensure effectiveness in supporting educational services and operations ([LAN/WAN Monitoring Tool Screenshots](#), [Phishing Campaign Plan](#), [ResoluteGuard Vulnerability Assessment Letter](#)).

3.10

The institution has appropriate strategies for risk management and has policies and procedures in place to implement contingency plans in the event of financial, environmental, or technological emergencies and other unforeseen circumstances.

Kern Community College District (KCCD) has policies and procedures in place that will mitigate emergencies and unforeseen occurrences that would significantly impact the availability of its resources. KCCD Board policies and administrative procedures that govern risk and emergency response are the following documents:

- BP and AP 3505 Emergency Planning, Preparedness, and Response Plan ([Administrative Procedure 3505 Emergency Planning Preparedness and Response](#), [Board Policy 3505 Emergency Planning, Preparedness, and Response](#))
- BP and AP 6540 Insurance ([Administrative Procedure 6540 Insurance](#), [Board Policy 6540 Insurance](#))

KCCD has sufficient insurance to cover its needs in financial emergencies. KCCD is self-insured with property and liability coverage through the Statewide Association of Community Colleges (SWACC) ([MOC Declaration By District](#)). SWACC is a member-owned and -operated property and liability joint powers authority that provides programs and resources to specifically address its community college members' exposure to loss through broad and unique coverages, specialized loss-control services, training, fiscally responsible self-funding, and risk transfer ([2023-2024 Statewide Association of Community Colleges MOC](#)). KCCD also requires contractors to provide insurance certifications and indemnifications commensurate with the risks associated with their service. KCCD is self-insured with workers' compensation insurance through Self-Insured Schools of California (SISC). SISC is the largest public school joint powers authority in the United States and has existed for over forty years. SISC provides stable coverage and predictable rates and offers loss-control services to reduce District claims ([KCCD Workers Compensation Proof](#)).

KCCD routinely reviews and updates its insurance coverages. In partnership with Keenan & Associates, our third-party property and liability insurance administrator, the District meets annually to discuss both District and industry-level risks, limits, coverage, and claim trends. KCCD is a member of the SISC I—Workers’ Compensation Board of Directors and the SWACC Board of Directors and influences the policies that provide insurance coverage to the District ([Statewide Association of Community Colleges Pre Renewal](#)).

Kern Community College District has protocols for backup and recovery of sensitive data systems, including student and employee information systems. KCCD IT has contractual assurances from the software and hosting vendor of the Enterprise Resource Planning/Student Information System (ERP/SIS) related to backup schedules and retention timeframes, Real Time Objective (RTO), and Recovery Point Objective (RPO) for disaster recovery as well as procedures on how to back up other key systems ([Administrative Procedure 3505 Emergency Planning Preparedness and Response](#), [BP 3505 Emergency Planning, Preparedness, and Response](#), [KCCD District Office Information Technology Incident Response Plan](#), [Cyber Insurance: Certificate of Insurance](#), [Ellucian Banner ERP Hosting Contract: Information Security Addendum](#), [KCCD Backup Documentation \(Sensitive Security Info Redacted\)](#)).

Standard 4: Governance and Decision-Making

4.1

The institution upholds an explicit commitment to principles of academic freedom, academic integrity, and freedom of inquiry.

The Institution communicates its commitment to academic freedom and freedom of inquiry principles to relevant stakeholders, including students. KCCD is committed to the principles of academic freedom and has instituted Board policy to support the role of academic freedom. Board Policy 4030 and Administrative Procedure 4030 relate to the district-level commitment to academic freedom. Article 4 of the negotiated agreement between the District and the Kern Community College District Community College Association similarly explains expectations for the District, colleges, and unit members regarding academic freedom. Furthermore, the catalog's Academic Information and Standards section includes the same clarifying language regarding academic freedom. These resources are consistently available on the District and College websites. They are also distributed to relevant constituency groups ([Board Policy 4030 Academic Freedom](#), [District Administrative Procedure 4030 Academic Freedom](#), [Board Policy 4700 Controversial Issues in Curriculum](#), [KCCD Faculty Contract](#)).

The Institution communicates clear expectations for academic integrity and freedom of inquiry to relevant stakeholders, including students. The catalog's Academic Information and Standards section includes guiding language for all constituency groups regarding academic integrity and freedom of inquiry, including the specific concepts of academic honesty and intervention procedures ([Porterville College Catalog 2024-2025](#)).

The faculty contract is publicly available on the KCCD website and expresses the expectations related to academic freedom ([KCCD Faculty Contract](#)).

The Institution follows clearly communicated procedures for addressing instances of academic dishonesty and violations of its principles of academic freedom and freedom of inquiry. The catalog's Academic Information and Standards section includes guiding language for all constituency groups regarding academic integrity and freedom of inquiry, including the specific concepts of academic honesty and intervention procedures. Additionally, the Student Services section of the catalog includes communication regarding the Standards of Student Conduct as stipulated by Board Policy 5500 and Administrative Procedures 5500, 5520, and 5530. AP 5530 also communicates student rights and grievances. Beyond the catalog, procedures and expectations are communicated through the Faculty Handbook ([Faculty Handbook](#)) and during Adjunct Orientation presentations ([Adjunct Faculty Orientation Spring 2024](#), [Faculty Start of Term Informational Guide Sheet Spring 2024](#)) at the start of each fall and spring semester. Reporting, tracking, and management portal of issues is facilitated through MAXIENT, a new student conduct management software. This new software allows the campus community to participate more effectively in operationalizing academic integrity cases and incidences. The faculty contract addresses progressive corrective action, which would include violations of

academic dishonesty and violations of academic freedom ([KCCD Faculty Contract](#), [District Administrative Policy 5500 Standards of Student Conduct \(May 2023\)](#), [District Administrative Procedure 5520 Student Discipline Procedures \(May 2023\)](#), [District Administrative Procedure 5530 Student Rights and Grievances \(May 2023\)](#), [Board Policy 5500 Standards of Student Conduct \(May 2023\)](#), [PC Academic Integrity Form](#), [PC Behavioral Intervention Team \(BIT\) Referral](#), [Faculty Handbook](#)).

4.2

Roles, responsibilities, and authority for decision-making are clearly defined and communicated throughout the institution. Institutional decision-making processes provide opportunities for the inclusion and participation of stakeholders, as appropriate to the institution's character.

Structures for decision-making are appropriate for the Institution's mission and organizational structure. The Elements of Decision Making document outlines the decision-making process in alignment with the Institution's mission and organizational structure. It defines the roles, responsibilities, and opportunities for participation in decision-making. The colleges periodically review the document, and the District Consultation Council approves the updates. The latest update to Elements of Decision Making is due to be approved in the fall of 2024. The budget development and budget planning calendar is an example of how the process is implemented at Porterville College. Through this process, the College ensures the local budget is in alignment with the districtwide Budget Planning Calendar. The College Vice Presidents of Finance and Administrative Services issue budget preparation instructions to the colleges. The Porterville College Budget Committee participates in the budget development process and takes the lead in communicating the process with the collegewide constituent groups. The process also allows time for the College constituent groups to participate and make budget requests for the upcoming fiscal year and allows time for the PC Executive Team to review the proposed budget to make necessary adjustments in order to meet the goals and objectives for the upcoming academic year. The budget development process at the college level aligns with districtwide due dates to ensure that the budget is developed in a timely manner and presented to the KCCD Board of Trustees for review and approval ([College Council Meeting Minutes \(February 5, 2024\)](#), [Elements of Decision-Making 2016](#), [Elements of Decision-Making 2023](#), [KCCD Budget Development Calendar and Example](#), [Budget Request Process and Instructions](#)).

Procedures for institutional decision-making are documented and widely available to relevant stakeholders. In fall 2024, the District Consultation Council will approve the latest update to the Elements of Decision Making, which is published on the District Consultation Council website. The College has updated the Porterville College portion and awaits final approval for the comprehensive, districtwide document ([Budget Monitoring Training](#), [2024 Budget Request Timeline](#), [Banner Training \(February 28, 2024\)](#), [Five-Year Instructional Request Form](#)).

Roles, responsibilities, and opportunities for participation in decision-making are clearly defined. The Elements of Decision Making document clearly delineates the aspects of decision-making at the College and the District.

4.3

The institution’s decision-making structures and processes are used consistently and effectively to advance the mission and prioritize equitable student outcomes.

The Institution holds itself accountable for implementing its decision-making practices consistently to ensure the inclusion of appropriate stakeholders and a shared understanding of decisions. The Elements of Decision Making document ([Elements of Decision Making 2016](#), [Elements of Decision Making 2023 DRAFT](#)) outlines the decision-making process for the District and Colleges and relates where all constituency groups fall within the decision-making structure. The District Consultation Council discusses, vets, and approves key decisions within the District, such as budget, COVID-19 vaccine requirements, bachelor’s degree program applications, and Board policy updates. The College and District are committed to consistent inclusion of all groups by ensuring all governance-related committees are regularly scheduled and are included in the relevant participatory workflow ([College Council Meeting Minutes \(February 5, 2024\)](#), [KCCD District Consultation Council Agenda \(August 24, 2021\)](#), [KCCD District Consultation Council Agenda \(April 26, 2022\)](#), [KCCD District Consultation Council Agenda \(March 1, 2022\)](#), [KCCD District Consultation Council Agenda \(October 18, 2022\)](#), [KCCD District Consultation Council Agenda \(November 22, 2022\)](#), [KCCD District Consultation Council Agenda \(February 28, 2023\)](#), [KCCD District Consultation Council Agenda \(April 25, 2023\)](#)).

Decision-making practices result in decisions that support institutional innovation and advance the mission of the Institution. The College Council strategically includes a broad representation of all constituent groups and meets twice monthly. Consistently scheduled discussion and thorough representation ensure diverse thought and consideration guide each decision as well as alignment with the mission. The District Consultation Council supports institutional innovation as exemplified by its support of the Bachelor’s Degree Program, technology improvement from EthicsPoint to Maxient, and the Faculty Leadership Initiative ([KCCD District Consultation Council Agenda \(October 18, 2022\)](#), [KCCD District Consultation Council Agenda \(March 1, 2022\)](#), [KCCD District Consultation Council Agenda \(April 26, 2022\)](#)).

The Institution evaluates its decision-making practices and makes improvements when needed to improve effectiveness. The Elements of Decision Making document is periodically reviewed and updated by the College and the District to reflect thoughtful and strategic changes to the participatory governance process, including in 2024 ([College Council Meeting Minutes \(February 5, 2024\)](#)).

4.4

Acting through policy, the governing board takes responsibility for the overall quality and stability of the institution and regularly monitors progress towards its goals and fiscal health.

Kern Community College District has appropriate policies that delineate the governing board's accountability for academic quality and achievement of equitable outcomes. Board policy clearly delineates the governing board’s duties, responsibilities, and participation in local

decision-making and addresses the Board code of ethics ([Board Policy 2200 Board Duties and Responsibilities](#), [Board Policy 2410 Board Policies and Administrative Procedures](#), [Board Policy 2510 Participation in Local Decision Making](#), [Board Policy 2715 Code of Ethics](#)).

The Kern Community College District governing board regularly reviews key student learning and achievement indicators and institutional plans for improving academic quality and equitable outcomes. The Student Success with Equity subcommittee of the Board regularly meets to review student success metrics. Each meeting is summarized in a report for the full Board ([KCCD Board of Trustees Student Success with Equity \(DEIA\) Committee Agenda \(May 10, 2022\)](#), [KCCD Board of Trustees Student Success with Equity \(DEIA\) Committee Agenda \(May 8, 2023\)](#), [KCCD Board of Trustees Student Success with Equity \(DEIA\) Committee Agenda \(July 31, 2023\)](#)).

Kern Community College District has a policy manual or other compilation of policy documents that delineates the governing board's role and responsibility in ensuring the financial stability of the Institution. The Board's duties and responsibilities are addressed in BP 2200 and include ensuring the financial health of the Institution ([Board Policy 2200 Board Duties and Responsibilities](#)).

The Kern Community College District governing board regularly reviews key fiscal information and documents regarding the stability of the Institution. The Board has created a Board Finance and Audit Committee that regularly gauges and reviews the financial stability of the District ([Board of Trustees Finance and Audit Committee Agenda \(April 26, 2023\)](#), [Board of Trustees Finance and Audit Committee Agenda \(May 25, 2023\)](#), [KCCD Board of Trustees Finance & Audit Committee Agenda \(April 26, 2023\)](#)).

The Kern Community College District governing board has a system for regularly evaluating and revising its policies. Board Policy 2410 states the Board policies and procedures will be reviewed on a periodic basis ([Board of Trustees BP 2220 and BP 3810 Review and Approval \(April 14, 2023\)](#), [Board of Trustees Chapter 5 BP Review and Approval \(December 16, 2021\)](#), [Board of Trustees BP4k BP7D2A BP7D4 Review and Approval \(April 8, 2021\)](#)).

KCCD Board policy clearly delineates the governing board's duties, responsibilities, and participation in local decision-making and addresses the Board code of ethics ([Board Policy 2200 Board Duties and Responsibilities](#), [Board Policy 2510 Participation in Local Decision Making](#), [Board Policy 2715 Code of Ethics](#)).

The Student Success with Equity subcommittee of the Board regularly meets to review student success metrics. Each meeting is summarized in a report for the full Board ([KCCD Board of Trustees Student Success with Equity \(DEIA\) Committee Agenda \(May 10, 2022\)](#), [KCCD Board of Trustees Student Success with Equity \(DEIA\) Committee Agenda \(May 8, 2023\)](#), [KCCD Board of Trustees Student Success with Equity \(DEIA\) Committee Agenda \(July 31, 2023\)](#)).

4.5

The governing board selects the institution’s chief executive officer (CEO). The governing board gives the CEO full authority to implement board policies and ensure effective operations and fulfillment of the institutional mission.

The Kern Community College District governing board sets clear expectations for regular reports on institutional performance from the chief administrator. KCCD Board Policy 2430 clearly defines the delegation of authority to the District Chancellor ([Board Policy 2430 Delegation of Authority to the District Chancellor](#)).

The Kern Community College District governing board has policies outlining the delegation of administrative authority to the Institution’s chief administrator. KCCD Board Policy 2430 clearly defines the delegation of authority to the District Chancellor ([Board Policy 2430 Delegation of Authority to the District Chancellor](#)).

The Kern Community College District governing board adheres to its policies for delegating administrative authority to the Institution’s chief administrator. KCCD Board Policy 2435 addresses the evaluation of the District Chancellor ([Board Policy 2435 Evaluation of the District Chancellor](#), [Board Policy 2431 District Chancellor Selection](#), [Board Policy 2432 District Chancellor Succession](#)).

4.6

The governing board functions effectively as a collective entity to promote the institution’s values and mission and fulfill its fiduciary responsibilities. The governing board demonstrates an ability to self-govern in adherence to its bylaws and expectations for best practices in board governance.

The Kern Community College District governing board outlines its expectations for working as a collective unit to support the mission. KCCD Board Policy 2200 documents the responsibilities of the Board and outlines expectations for working as a collective unit in support of the mission ([Board Policy 2200 Board Duties and Responsibilities](#)).

The governing board demonstrates the ability to act in the best interest of the Institution, independent from undue influence. KCCD Board Policy 2710 and 2715 govern behaviors related to this criterion. The unanimous selection of a new Chancellor and the approval of a districtwide vaccine requirement as a response to COVID-19—both potentially controversial decisions—are examples of the Board acting in the best interests of the Colleges and its students, independent from undue influence ([KCCD Board Vaccine Resolution NO. R-4-21](#), [KCCD Board Contract Approval-New Chancellor](#)).

Once a collective decision has been reached, Board members demonstrate their support for Board policies and decisions individually. KCCD Board Policy 2715 explicitly sets the expectation that Board members uphold the final decisions of the Board ([Board Policy 2715 Code of Ethics](#)). Evidence of the Board demonstrating its collective decision-making is the

unanimous approvals of high-level planning documents within its purview, such as the KCCD Strategic Plan ([KCCD Strategic Plan](#), [KCCD Strategic Directions Addendum 2022-2024](#), [2019 Strategic Plan Approval](#), [2019 Approval of Strategic Plans](#), [2022 KCCD Strategic Plan Addendum Approval](#), [2022 Approval of College Equity Plans](#)).

The Institution's governing board has documented procedures for self-governance and addressing behavior that does not align with its policies. Board Policy 2745 Board Self-Evaluation and BP 2715 Code of Ethics and Standards of Practice document self-governance procedures and address behavior that does not align with its policies.

The governing board improves its effectiveness through orientations, professional development, and regular board self-evaluation. KCCD Board Policy 2740 and KCCD Board Policy 2745 ([Board Policy 2740 Board Education](#), [Board Policy 2745 Self Evaluation](#)) govern the topics of this criterion. The Board and Chancellor adhere to the standard by conducting onboarding orientation for new trustees, periodic training for the full Board on topics such as ethics, diversity, and the Brown Act, and regular self-evaluations. The last self-evaluation was conducted in 2023 ([2022 New Board Member Onboarding](#), [2019 New Board Member Training](#), [2020 Sexual Harassment Prevention Training](#), [Diversity, Equity, and Inclusion Training](#), [Board Ethics](#)).

C. Required Documentation

Standard 1: Mission and Institutional Effectiveness

| Required Item | Documentation |
|---|---|
| i. Documentation of institution’s authority to operate as a post-secondary educational institution and award degrees (e.g., degree-granting approval statement, authorization to operate, articles of incorporation) (ER 1) | <ul style="list-style-type: none"> ● California Education Code Section 70902 ● PC Catalog (pg. 11) ● Porterville College Reaffirmation ACCJC |
| ii. Procedures/practices for periodic review of mission/mission-related statements, including provisions for revision (if/when revisions are needed) that allow for participation of institutional stakeholders, as appropriate for the character and context of the institution | <ul style="list-style-type: none"> ● KCCCD Master Institutional Planning Cycle (February 27, 2024) ● KCCCD Strategic Plan 2019-2022 ● PC Strategic Plan 2021-2024 ● Porterville College Educational Master Plan |
| iii. Documentation of the governing board’s approval of the institutional mission (ER 6) | <ul style="list-style-type: none"> ● Board Approval for PC Educational Master Plan ● PC Mission Approval |
| iv. Procedures/practices for setting institutional goals, including provisions for the inclusion of input from relevant institutional stakeholders, as appropriate for the character and context of the institution | <ul style="list-style-type: none"> ● KCCCD Master Institutional Planning Cycle ● PC Strategic Plan 2021-2024 ● Porterville College Educational Master Plan ● IPAA Model 2023 |
| v. Documentation that the institution has established standards and goals for student achievement (i.e., institution-set standards), including but not limited to standards and goals for course success, degree and certificate attainment, transfer, job placement rates, and licensure examination pass rates, at the institutional and program levels (ER 2, ER 11) | <ul style="list-style-type: none"> ● 2024 Annual Report Porterville College ● College Council Meeting Minutes (April 1, 2024) |

Standard 2: Student Success

| Required Item | Documentation |
|---|--|
| <p>i. Documentation that the institution’s practices for awarding credit reflect generally accepted norms in higher education, including:</p> <ul style="list-style-type: none"> ● Commonly accepted minimum program lengths for certificates, associate degrees, and baccalaureate degrees ● Written policies for determining credit hours that are consistently applied to all courses, programs, and modalities ● Adherence to the Department of Education’s standards for clock-to-credit hour conversions, if applicable (ER 10) <p>See Commission <u><i>Policy on Credit Hour, Clock Hour, and Academic Year</i></u></p> | <ul style="list-style-type: none"> ● 55002 California Code of Regulations ● Administrative Procedure 4020 Chapter 4 Academic Affairs ● Board Policy 4020 Program, Curriculum, and Course Development ● Administrative Procedure 4100 Graduation Requirements for Degrees and Certificates ● Board Policy 4100 Graduation Requirements for Degrees and Certificates ● Curriculum Handbook 2022-23 ● Program Course Approval Handbook |
