

Systemwide Technology Access Collaborative (STAC)

In 2020 during the COVID-19 pandemic, the California Community Colleges Chancellor's Office (Chancellor's Office) collaborated with the California Virtual Campus (CVC) and the Foundation for California Colleges' CollegeBuys program to simplify access and procurement of online education tools to deliver virtual instructional and student support services. The result was the California Community College STAC program, the purpose of which is to leverage greater economies of scale that lead to expanded cost savings by centrally coordinating procurements of online education tools.

To participate in STAC, please complete the following steps:

1. **Complete** the attached Order Form by selecting the online tools you are seeking to purchase through STAC along with the quantities needed. If multiple department heads are purchasing, please collaborate and submit only one order form. Order Forms are due by Friday, June 13, 2025.
2. **Submit** the Order Form to STAC via email to collegebuys@foundationccc.org. For STAC to accept an Order Form, the form must be signed. Services purchased through STAC within the purchasing window will be active between July 01, 2025 to June 30, 2026 unless otherwise specified.
3. **Receive and Approve** the quote issued by STAC (not-to-exceed pricing). In response to the quote the college/district will provide a Purchase Order. Once all STAC purchases are aggregated, invoices will be issued and reflect final pricing for selected services.

Please note that pricing reflected on the Order Form is not-to-exceed (NTE) pricing, and may be reduced further depending on the system's economies of scale. This is the value STAC aims to deliver, and updated pricing will be reflected in the invoice provided by CollegeBuys, on behalf of STAC. Colleges that do not participate in STAC can still purchase the below services through the supplier agreements at standard contract pricing.

Purchasing Collaborative Procurement Window

Fiscal Year: 2026

Coverage Period: July 01, 2025 to June 30, 2026

Note: Multi-year purchases are available for some suppliers

Procurement Window: Now through Friday, June 13, 2025

Order Form Deadline: Friday, June 13, 2025

Invoice Deadline (Issued by CollegeBuys, on behalf of STAC): No later than Friday, July 18, 2025

Purchase Order Deadline: Friday, July 11, 2025

ORDER FORM

STAC partnerships and pricing information are provided below. These partnerships are CVC and/or CollegeBuys partners that have demonstrated efficacy within the community college environment and are committed to partner-level engagement. **Pricing provided below is the maximum not-to-exceed pricing and may be lowered once all participating colleges' information is aggregated** (i.e. pricing will be determined based on our systemwide volume). Participating colleges should select providers for their needs, and complete the sections in red (below) for the coverage period: **July 01, 2025 to June 30, 2026**. By signing, participating colleges accept service provider terms and conditions as secured by the Foundation (links to provider terms and conditions are provided (below) in accordance with California Public Contract Code [20661](#)). Colleges may withdraw participation at any time within the procurement window without issue. Additional supplier purchasing agreements are available outside of the STAC order form. Please visit the [FoundationCCC CollegeBuys website](#) for an overview of all our 140+ supplier partnerships.

Table of Contents

Use this table of contents to quickly identify and navigate to relevant products (select a supplier’s name to navigate to that part of the order form). Links to return to the table of contents are available at the bottom of each page.

Anthology (Ally) 5

Anthology Ally helps build inclusive environments and makes digital content more accessible for all by providing an integrated and seamless approach to creating more accessible content, automatically generated alternative formats for all, feedback and guidance for faculty, and comprehensive reporting. Equity is not about disability or ability; it is about accessibility and inclusion for everyone. Anthology Ally addresses barriers to make LMS content more accessible to all.

NameCoach 5

Our names are central to our unique identities, and saying them correctly is the first step in connecting with, respecting, and appreciating one another. Namecoach provides a simple and effective solution: audio name pronunciations embedded online to easily learn and remember how to say them. Perfectly.

Link-Systems International 6

LSI is a market-leading educational technology company whose student-centered suite of interoperable products and services produces measurably better learning outcomes and increased retention rates in hundreds of higher-ed institutions nationwide. The NetTutor online tutoring service is available to students 24/7/365, staffed with highly qualified and the best-trained tutors, and includes customized service options and flexible platform configuration.

Pronto 6

Pronto is a real-time communication platform designed specifically for classroom communication and engagement, seamlessly integrated with Canvas. With a mobile-first approach, Pronto provides instant messaging, video conferencing, and file sharing, along with equitable features that enhance student interaction and engagement. It moves beyond outdated tools like email, keeping students connected while helping institutions meet RSI standards through meaningful communication in online and hybrid courses.

Labster 7

“Where STEM Starts to Click” - Labster’s 300+ virtual lab simulations help make STEM make sense for all students. Back row students clear the hurdle between pass and fail. Middle-row students become more confident learners. And front row students approach mastery. Instructors love it because they can focus on what they want. And colleges love it because it increases pass rates – along with retention and graduation rates. Visit www.Labster.com.

Adobe Creative Cloud 8

Creative Cloud gives you the world’s best apps and services for video, design, photography, and the web. It’s easy to get started with built-in tutorials and templates.

Cidi Labs. 8

We provide clever, affordable plug-in tools for Canvas that help course designers and educators dramatically increase productivity, ignite creativity, and scale the delivery of high quality, accessible learning.

FeedbackFruits10

FeedbackFruits is a Canvas Integrated Teaching and Learning System that enhances student engagement through peer/ group evaluations, auto-group formations, authentic assessments, and social annotations. FeedbackFruits supports scalable, active learning designs and ensures compliance with standards like RSI while saving teacher’s time. Through the STAC program, institutions can pilot all tools for 1 year and then select a customized bundle tailored to their needs.

ConexED12

ConexED – The most comprehensive “All-in-One” Student Engagement Platform for CRM, Student Services & Retention— Enhanced with AI. Seamlessly integrating into your institution’s workflows, ConexED empowers student success by streamlining engagement, communication, scheduling, alerts & case management—enhancing the experience for both students and staff.

Honorlock13

Honorlock is a remote proctoring solution that innovates and improves the online assessment experience by leveraging the best of both worlds - humanity combined with the power of highly trained and responsive AI. Honorlock provides a low-friction environment for all test takers bolstered by world-class support, while preserving the integrity of the institution’s credentials.

Proctorio13

Proctorio is a secure, scalable remote proctoring solution designed to protect academic integrity. With features like live & automated proctoring, ID verification, browser lockdown, AI tool detection, proxy use prevention and more, Proctorio provides a seamless exam experience with the lowest bandwidth requirements on the market - all on demand without any delays or exam scheduling.

California Connects.14

California Connects is an affordable internet program brought to you by CollegeBuys and powered by T-Mobile. The program aims to bridge the digital divide by providing access to 4G LTE broadband internet at home, school, or on the move. The service is available to all students, faculty, and staff at any California educational institution. Each California Connects hotspot supports multiple devices, enabling academic, personal, and professional use.
