Addressing Title IX Compliance and Athletic Facility Upgrades

Primavera Monarrez highlighted significant Title IX compliance issues in the athletic facilities, especially regarding the locker rooms, which have not been updated in years. The discussion included two funding proposals: one for \$5 million to address immediate concerns and another for a more comprehensive project estimated at \$9 to \$10 million. Monarrez emphasized the importance of equitable facilities for both genders and the need for prompt action.

Primavera Monarrez highlighted the need for a project that addresses outdated facilities, including HVAC and IT components. She mentioned that the project requires board approval, which will be discussed in the upcoming finance committee meeting. Elisa Queenan expressed hope for approval but remained cautious about making promises. Primavera Monarrez will inform Griselda about the board's approval status. Griselda will email the information regarding the locker room project to the committee members for posting.
